SPECIAL ELECTION.

CARLISLE, KY., March 1st, 1893.

To the Chairmen of the Democratic County Committee:

Under direction of a resolution of the State Central Democratic Committee, you are requested to have the Democratic voters of each voting precinct in your county choose a number of the Democratic Committee for your county to serve two years from the date of their election or until their successors are chosen by order of the State Committee. The resolution authorizes the members of the State Committee from each Congressional District to appoint the Committeemen from each county, if they do not take such responsibility, but does not authorize them to appoint a Committeeman from whatever locality the President-elect himself may reside. Judge Hendricks remembers a bit of history, he says, Mr. Lincoln wanted a seat in the Senate, and he was the only man who ever attempted to set aside a Democratic member election on Saturday, March 25th, 1893, at Carlisle, at the usual places and then select a Committeeman. The Committeemen elected on the days above named will meet at the County house at their county seat of Carlisle on April 1st, 1893, at 2 o'clock and by and there proceed to elect a County Chairman and Secretary. The Committee may fill any vacancy from the County Committee, but the Secretary must be outside of the Committee.

These have the Chairman of the County elected notify me at once of the name and postoffice address of each and or with the number of names of the voting precincts as directed by this circular. You will preside at the meeting of the new Committee at the court house, and the present members of the Committee will preside at the meeting and any organization of the precinct must be done by the voters of the precinct themselves. In the event of a contest over voting precincts the present Democratic will have to be the basis of temporary Chairmen.

I trust everything will be done to the best interest and organization of the party.

E. B. KELLER,
Member State Central Committee, 9th Congressional District.

A special from Washington of the 7th says: "The official count of the late President Cleveland among the large pluralities of the Democratic electors in the cottages of the would-be statesmen who under his second, will read with mortal dismay the dispatches from Washington. The President evidently means to have a new deal all the way through, and the gentlemen who enjoyed the official "pap" for four years are no longer "in it." Congressman Springer yesterday asked President Cleveland whether the report that he did not intend to reappoint any officials who formerly held office under him, was true. The reply was held for the report was correct, and that the rule would be an inflexible one in all cases where extraordinary circumstances might seem to demand."

NOTICE TO DEMOCRATS.

The Democrats of each voting precinct will choose directors of election to be passed by the State Central Committee; meet March 11th, 1893, at 2 o'clock, p. m., to choose a member of the County Committee in each of their respective precincts. The members have their names with the County Court-house on Saturday, April 1st, 1893, at 2 o'clock, p. m., at the office of their member a Chairman for the county. At which time and place the election Chairman will be ordered.

By Order of the County Committee.

E. B. KELLER, Chairman.
