Let the men wash,

if they won't get you Pearline. Let them try it for themselves, and see if they don't get their washing with soap in less than half the usual time.

This kind work that Pearline saves isn't the whole matter; it saves you money, too—money that's thrown away in clothes needlessly worn out and rubbed to pieces when you wash by main strength in the old way.

That appeals—where isn't the man who wouldn't want to have the washing done easier—when he can save money by it?

We have always, from first start of the year's business, and given them lower prices all and every month, and now we are going to be prompt in coming better, must have them quantity, as we are being pushed—and that we can't hold out much longer unless you buy more or heavy quantities.

Now, my friend, I do not want to push you, but you must do something for me, or I will have to do SOMETHING you won't like.

CHICAGO, Aug. 27.—President Pullman of the palace car company was recalled at the beginning of the session of the national labor commission. He produced a letter from Receiver Wilbur which stated that the new figures of wages could not be put in force before September 1. Mr. Pullman was then asked the question, "Do you think it would have been wise for the company to have made such reduction before the Pullman convention?" He answered that he thought it would have complicated matters
