OHIO is Ohio they have indicted a Colonel of the Militia for murder in ordering his men to fire on a mob that was attempting to hang a negro prisoner. Ohio justice is a queer thing to contemplate.

STATE Treasurer Hale gave out an authorized statement that he had just turned over to the Governor $1,000,000 to bridge the yawning deficit in the State Treasury. Governor Buckner accomplished by an agreement among the officeholders to turn over their warrants on the Treasury as they become due.

THE Mt. Olivet correspondent of the Maysville Bulletin says: "Hon. Hanson Kennedy is receiving quite a boom for Representative from Nicholas and Robertson counties. He would make a generous better material for the position than Mr. Kennedy and his friends will support him with a hearty good will."

STATE SECRETARY has introduced a bill to appropriate $1,000 to pay the school interest of those States which Kentucky was restored as equal portion in public lands. Kentucky would get 1,500,722 acres under this bill. Judge Berkner has shown that he possesses a good Congressional timber.

THE Congress of the United States will meet on the 2d of December next and pass $70,000,000 worth of pension bills as well as the interest thereon, for the purpose of digging a canal from the Atlantic to the Pacific Ocean, at Panama. If we could send Congress down there and drown them in the canal we would not kick against the appropriation.

HON. J. B. HILER, who ably represented Bracken County in the last Legislature, is a candidate for re-election. Mr. Hiler gained quite a State reputation by ably advocating his compulsory educational bill and other matters in the interest of the common schools, and his'experience will be of great benefit to his people. Bracken is one proper to send him back to the halls of legislation.

THE constituents and friends of Hon. W. M. Beckner are receiving printed copies of his recent speech in the National House in the support of the Carlisle Statutory bill. There is about the new member's style of writing and his Democracy as well as sound money, and it may prove a pity that Mr. Beckner's term, like that of so many others who have preceded him, is to be so short. The gentleman, however, will be remembered by the prosperous party interests of Bracken County as one who have been in the House but a few days. (Frankfort Call.

LOVING GRAHAM is what is likely to be! Loving Graham looks fine, but we will be glad to see him and greet after he has experienced a little. There is nothing so delightful as to be close to after passing through trouble. It's like hunting you for the first time after you've been hurting.

In an interview with the Hon. Ed Rumsey he said he was glad to see that the Democratic legislature had passed the search land for taxes, but that he regretted that a constitutional law existed throughout the county that he was limited in the amount of land he could legally in his disadvantage, and that he could not have more than 1,000 acres and taxes should be collected, and the State would get the benefit of the whole of them. Mr. Rumsey is very much indigent to the lawyers and should not be deprived of being able to protect himself right with the State, (Louisville Law Landmark.—[Breckinridge Chronicle.

PRESIDENT Cleveland sent a message to Congress Monday in which he appeals to that body to lay aside party differences and pass such measures as the country will give the country relief at once. The message indicates that the President is much worried about the financial condition of the country. He is not alone in that feeling this year. If Mr. Cleveland will send the message to New York and Brooklyn bankers who are now attacking and fighting the credit of the United States," as Mr. Lincoln did on certain occasions, he will receive a letter or two from a name as famous as that of Lincoln.

The Republican Platform.

Re-read the McKinley law, place a 6.2 before it, and you have the platform for the Republican party for 1890. Its prosperity depends upon its success. If not of the entire South, then of the Republican portion of it. Read every paragraph, and see what the Republican party has done, is doing and will do if it can have the power to do it. Then ask yourself if you can afford to vote against it. Can you afford to vote for the party of high taxes, high prices, and low wages? Can you afford to vote for the party of the trust? Can you afford to vote for the party of the Force bill? Can you afford to vote for the party of the Force bill? Can you afford to vote for the party of the Force bill
