Treasurer—S. C. Ford, of Clay.
Superintendent of Public Instruction—Eugene of Laval Gilbert, of Wayne.
Commissioner of Agriculture—Jos. S. Taylor, of Jefferson.
Representative in Congress—Thomas H. Hunter, Fayette.

RAILROAD COMMISSIONER THIRD DISTRICT
G. S. KELLER, of Scott.
For Superintendent of Public Instruction.

JAMES C. MILLIGAN.

AT COVINGTON. Major Ellstrod was nominated for Councilman by the Democrats.

J. M. SOMERS, Turpin Party candidate for the Legislature from Florence was later Monday.

SECRETARY CARLISLE delivered an address to send money at the Hebrew Club dinner in Boston Saturday night.

HON. W. C. OWENS made a fine campaign speech at Paris last Saturday, and we are pleased to hear that it had a fine effect on the Democratic situation there.

MR. HAYNES MOORE, the Prohibition candidate for Representative from the counties of Nicholas and Robertson, was in town Monday looking after the political fences. Moore's following is not large.

Our school teachers are all receiving their October payments. It took over eight hundred dollars to meet all of the State treasury, and still our Republican friends say that free silver luck is a bankrupt.

THE Republicans of Mason and Lewis counties have nominated Jas. D. Black for Senator. Major Wm. Cox, who refused to support Stanley, resigned as Democratic Committee.

THOS. DAY, on account of sickness in my family I have delayed not to make the announcement of the date at which you request me to make some speeches in the pending campaign. I regret very much that I am unable to fill the appointment at Carlisle, but I prefer to comply with your request to make a speech at Paris on the day you name, and will devote my time to the interests of sound money and good government to be secured through the Democratic party.

I heartily endorse the platform and will be by the Louisville Convention and the Democratic party in Kentucky. The issue of sound money is the whole thing, subject or no subject. A State has no power to issue money, but we all know that the Republican party is capable of resorting to any means to win.

YOURS RESPECTFULLY,
A. H. WARD.

County Committee.

The following gentlemen will compose the Democratic County Committee for the next four years: Jos. H. Dodd, Alonzo Henry, Jas. H. Messmore, Thos. M. Sharp, Robt. Burke, J. J. Moore, Jas. Ed. Westfall, Chas. McVey, P. H. Chrisholm, and Chas. Reed. They will meet on County Court day to elect a chairman and secretary.

The Republican papers are full of the "boodle" charges against Governor Stanley and Lieut. Governor Tyler, but the people know they were expected to publish, as a fact that they have been doing for this year, and that the Democratic ticket would run a thousand votes ahead in the entire State, but when none was present there was a rush for the telegraph window while Col. Bradley was in the room receiving the returns. The newspaper and publishers' room adjoined the telegraph office, and to that room we give the credit.

A Disgraceful Campaign.

I'm an actual disgrace to humanity the manner in which the Republicans are sending news about us to people in the east—that we are a lot of cut throats, mean niggerworshippers, and that we are unfit to be classed with the people of all over the country that an attempt was made to assassinate Gov. Bradley, the Democratic Governor of the State. The normal County at Mayo is a success in the following way:

Mayo, Ky., Oct. 14.—The Republican candidate for Governor, who is also the editor of this city to break yesterday was present, and the Democrats were not. The Democrats have County Court day here, and each nominee for Governor, Wherever crowds were to be found, there was the Democrats, and the people, and Democrats, were not. At Carlisle he was greeted by a large crowd, and Bradley was not. At Paris he was greeted by a large crowd, and Bradley was not. At Georgetown, the train waiting for Governor Bradley, and he was not. At Lexington, the crowd was gathered and the band was playing, and Governor Bradley was not. At Versailles, the same thing occurred. Governor Bradley was not.

The facts in regard to the above are these: Some monument threw a rock in to the front end of a train on Wednesday on which Col. Bradley was traveling, and he was afraid to leave the train. At this point crowds of people were gathered at the train
