Is Kentucky a Doubtful State?

The peculiar political conditions that have developed here and many more that will develop in the future, in the state as a factor in the national contest, will make it a doubtful state for many years to come. For this reason there is great interest, both at home and abroad, in the political situation in Kentucky. The Weekly Courier-Journal is the best paper published for the man who wants to keep fully advised on politics. To the reader of the Weekly Courier-Journal should be added the Sunday issue, which will be sent for the remainder of the year for only 25 cents. The Courier-Journal is the leading democratic paper of the south, and presents the news of every day in the week in a clear, concise and impartial manner. Its editorial comments are bright and pointed, and its discussions of political questions are fair and able. Every democrat should subscribe for it. Address, The Courier-Journal Co., Louisville, Kentucky.
