Spring Medicine

It is true wisdom for everybody to take a thorough course of Swift's Specific just at this season of the year. The blood is sluggish and impoverished, and the system is full of impurities which should be eliminated. In addition to thoroughly cleansing the blood, and toning up the system so as to avoid loss of appetite and a general run-down feeling in the spring, S. S. S. so strengthens and builds up as to fortify against the many forms of dangerous illness that abound during the hot summer season. It is a very small matter to take this precaution but it insures health and strength all summer. Swift's Specific

S.S.S. For The Blood

is far ahead of all other remedies for this purpose. It is a real blood remedy which promptly purifies the blood and thoroughly renovates the entire system, tones and strengthens the stomach, and renews the appetite. It is the only safe tonic, being purely vegetable, and the only blood remedy guaranteed to contain no arsenic, sulphur, mercury, potash or other mineral substance, which is of so much importance to all who know the injurious effects of these drugs. Nature should be assisted by nature's remedy, S. S. S. Take S. S. S. and be well all summer.

Advice to Consumptives

There are three great remedies that every person with weak lungs, or with consumption itself, should understand. These remedies will cure about every case in its first stages; and many of those more advanced. It is only the most advanced that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.

What are these remedies? Fresh air, proper food and
