ROYAL BAKING POWDER

Absolutely Pure

Delicate Children

They do not complain of anything in particular. They eat enough, but keep thin and pale. They appear fairly well, but have no strength. You can't say they are really sick, and so you call them delicate.

What can be done for them?

Our answer is the same that the best physicians have been giving for a quarter of a century. Give them

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. It has more than a remarkable nourishing power, it gives color to the blood. It brings strength to the muscles. It adds power to the nerves. It means robust health and vigor. Even delicate infants rapidly gain in flesh if given a small amount three or four times each day.

SCOTT & BOWNE, Chemists, 409 & 415 Pearl Street, New York.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may draw a patient for years on their mercurial and potash remedies, but he never gets well. Local symptoms, on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the blood, reaches the disease and forces it from the system.

I was afflicted with blood poison, and the doctors said I had a cancer. Mercury and potash did me no good, but made me worse. I was a horrible sight, my body being covered with sores, and my mouth and throat were in such a condition that I could not swallow food. I was reduced to a mere skeleton, and could not live but a few months. S. S. S. was recommended, and after using a few bottles I was greatly improved. I continued its use until I was entirely cured, and my blood is as pure as it ever was. I am a well man to-day, and have been for several years. I cannot say too much for S. S. S.

W. S. KENNEY,
Atlanta, Ga., Feb. 16, 1898.

It is like self-destruction to continue to take potash and mercury; besides they only drive the poison from one part to another, and cause rheumatism, ruin the stomach, and destroy the teeth. Don't be induced
