AN OPEN LETTER To MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "CASTORIA," the same that has borne and does now bear the fac-simile signature of Chas. H. Fletcher on every wrapper. This is the original "CASTORIA" which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of Chas. H. Fletcher on the wrapper. No one has authority from me to use my name except The Centaur Company, of which Chas. H. Fletcher is President.

"1847 Rogers Bros." goods have been made for over fifty years, steadily gaining in character of designs, finish and general popularity, but best of all the good old "Rogers" quality has been maintained. It would be hard indeed to improve upon the wearing qualities first exhibited by this brand, and which have made "1847 Rogers Bros." the most famous of all silverware. Do not experiment by trying something that has not stood the test of time. Buy "1847" goods, which have a well-known and well-earned reputation, and you run no risk. There are other "Rogers." The original and genuine has this prefix—"1847."

NEW ORDER IS COMING.

An innovation will probably be started in the money order division of the local postoffice about October 1. It consists in the fact that money orders can be drawn upon the office at which they are issued, provided that such office be not a "limited money order office." By the latter is meant an office where the amount of issue only is limited. Heretofore a money order that was issued at one office had to be payable at [illegible] standing of the reasons for making this change:

"This change in the practice of the service has been introduced in order to widen the scope of the money order system, and is in keeping with the policy of the Postoffice Department to make it a more popular and useful adjunct of the postal service. It is believed that this modification of the regulations will receive the favor of the public, and thereby result in a marked addition to the transactions of the money order system.

"Some suggestions are herewith given as to the practical use to which these orders may hereafter be placed:

"1. As a saving bank, at places where banks are not in operation, when persons desire temporarily deposit funds for safe keeping. Orders may be drawn in their favor, the amounts of which will be refunded on demand; or the order may be indorsed to another person, [illegible]

WOMAN AND TOBACCO.

Its Use and Abuse a Matter of Absorbing Interest.

One of the most interesting discussions of the day is growing up around the words "woman," "lady" and "cigars." On the one hand are the poor women—women who have to work and work hard for their money, and who are at present rejoicing because gradually the big tobacco firms are taking them on in preference to men, because they do the work as well, if not even better, and what is still more to the point, are more economical, as they do not smoke the products of their labor, while each man employed can safely be depended on to dispose of three or four a day.

On the other hand are the women of the Russian court, about as proud and wealthy a lot as any in the world, and they are calling public notice to themselves because, sad to relate, the tsaritsa has issued a request, which is, of course, quite equal to a command, that these same high-born dames will not, under any consideration, smoke in her presence, whereat a dismal wail has gone up from the victims that has penetrated all through Europe and on across the Atlantic.

Now it has been one of the laws of good breeding ever since Sir Walter Raleigh smoked the first pipe lighted in England, that the seductive weed was for the use of man alone, and that no true "lady" would ever indulge.

Now, there also has been some maintaining that it was dreadfully abused, as it should be kept explicitly for the designation of woman of culture and refinement.

But looking at these new tobacco developments from what has so far been the accepted standpoint of good breeding all over the civilized world, has it been put to such a wrong use after all? According to the anti-smoking ideas, which are really the true ladies—the poor women who roll the cigars, or the rich women who smoke them? It is rather an interesting question, and it is going to be a hard one to answer.—[Ex.
