A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE. The greatest care should be given to any little sore, pimple or scratch which appears upon the face, as it may develop into Cancer of the worst type. Many cases which appeared at first as any ordinary pimple, scratch or sore, have developed into frightful cases of Cancer. Cancer grows by the deadening of the nerves of the part affected, and the pain is not felt until the nerves are destroyed. Cancer is a blood disease, and no amount of outward treatment can ever cure it. The only way to cure Cancer is to get the poison out of the blood. S. S. S. is the only remedy which has ever been known to reach the blood in all cases of Cancer. It is guaranteed entirely vegetable, and contains no mercury or potash, or any other mineral ingredient. Book on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Ga.

MERE PIMPLES. some time do not heed these warnings, but carelessly treat themselves over to the doctors, who, in their ignorance of the nature of the disease, apply local remedies, which, instead of curing, only hasten the development of the cancer. Many cases have been pronounced incurable, because, when the cancer was discovered, the poison had spread to the glands, and other internal complications had made an effort whatever useless. If the cases could have been treated in time, they would have been cured. Book on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Ga.
