It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States.

That great law wrongs have been committed, and grave errors allowed to creep into the law of our country is evidenced by the speech, books and arguments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state.

Party affiliations have been ignored in the discussion of these errors, and the safeguards of our fathers and rushing pellmell into the affairs of Europe. The situation is a deplorable one is not alarming, as is also our domestic affairs dominated by organic Trusts.

The evils are not of spontaneous growth. They are the result of years of labor and planning, with the expenditure of dollar beginning with the establishment of high tariffs by crime. It action would be essentially known that every property owner was able to reclaim at the end of two years fairly most any property he had lost through the machinations of the trust. In the meantime the effort to collect the tax by the state would be practically at an end for two years as subject to a limited time, so much as Uncle Sam's treasury for this information, and the effort to collect the tax would be practically impossible. Under the law of the state a property owner is entitled to a hearing before the board of equalization for title and assess personal property at its actual value. Any property owner who feels that his property has been assessed too high can appeal to the board of equalization by giving notice of his intention to do so. Therefore, between tax payers and the board of equalization, he has ample opportunity to have his property assessed at its actual value.

In congressional districts, in which Republican, Democrat or of other political faith, can stand as Democrat to ignore the truth. Partisan prejudice, with the hope of success, is a far more disgusting enemy than that which existed previous to the Civil War of to-day.

Peace in the United States alone is not the only thing we have to fight for. Upon all the political stage in the world. There will spread many more millions of dollars to be earned, and facts and method of what led to it look beyond their immediate domestic scope. Read the Enquirer and you will be well informed. Send for sample copy. Address, Enquirer Company, Cincinnati, O.

The Enquirer and the Democratic Administration in 1900 will work together for the greatest good to greatest number.

Kirkby on Top.

Monday's Cincinnati Enquirer says: "Colonel Kirby and associates will be instructed how to build roads on the Macadam Road, and the supplies have been furnished. Colonel Kirby has been appointed superintendent of the Block Removal of which Colonel Albert Reese was at the head. The road is projected from Avondale, Cincinnati, Ohio, to near Reed, N. C. Reese and Kirby have had a serious, and Kirby seems to be on top."

As it seems that the Colonel's grand plan of Kentucky, whereby he was to be made rich beyond the dreams of avarice, has failed, and he has not been appointed Contractor, or defeated the contractor, his failure so far as Kentucky is concerned, and he is not really interested, can be forgiven by the people of the state.

With every division of the working force in the building of the road, and the operation of the machinery, the opportunity for construction, it was a matter of great interest to the people of Kentucky, and the Enquirer is pleased to know that Colonel Kirby is to
