THE TOBACCO TRUST.

Pay for Leaf Just Enough to Keep Farmers Raising It.

(Farmers Home Journal.)

If Burley tobacco growers who are now reveling in the luxury of five and six-cent tobacco want to get some idea of the profitableness of selling out to the great Continental Tobacco Trust, they should read the following clipping from the Evening Times, detailing a few fat "take outs" which some of the small stockholders of the John Finzer Brothers Tobacco Company enjoyed when that company went into the trust.

"For several years the managing employes have been given a little stock at Christmas time and at other times they were allowed to buy stock in the Finzer Company at low prices. This went on for several years. When the deal was closed Hughey Gorman, foreman of the factory, got $80,000 in cash for his stock and an equal amount of preferred and common in the Continental. Mr. Sheets, an overseer, got $80,000. Mr. David Keller, the Secretary, got $80,000 and a position in New York worth $15,000 a year. Rudy Finzer was given $60,000 for his share, while Mrs. Finzer got about $60,000 for the holdings of her deceased husband. The President of the company, Mr. Charles C. Vogt, received as his share $300,000."

When they can scatter money in this lavish style among the employes of one of the comparatively small factories, just try to "figger out" the kind of profits the Continental must make in order to pay dividends on $75,000,000. They can hardly be expected to pay more for raw leaf than is barely necessary to keep farmers raising it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving [illegible]
