Get a Start On Catarrh

And Save Endless Suffering which Winter Brings.

The most offensive of all diseases becomes more intense as cold weather approaches. In fact, many who have been under treatment for so long, and during the summer feel little discomfort from the disease, are almost persuaded that they have been cured. But the first chilling blast of winter proves that the disease is still with them, and as the winter advances, their Catarrh grows in severity. Those who have felt only a slight touch of Catarrh may be sure that only cold weather is needed to develop the disease. What appears to be only a bad cold will prove more difficult to cure than formerly, and will return with more frequency, until before long the disease is fully developed.

"For years I suffered from a severe case of Catarrh, and took several kinds of medicines and used various local applications, but they had no effect whatever. I was induced to try S. S. S. (Swift's Specific) and after two months I was perfectly well and have never felt any effects of the disease since.
"B. P. McAllister,
"Harrodsburg, Ky."

It is easy to see the importance of prompt treatment for Catarrh. Those who get a start on the disease before the cold and disagreeable weather aggravates it, will find a cure less difficult. Catarrh increases in severity year by year, and becomes one of the most obstinate and deep-seated troubles. But it is equally important that the right remedy be given. All local applications of sprays, washes, inhalations, etc., can never cure Catarrh, for they do not reach the disease. Catarrh is in the blood, and only a blood remedy can cure it. Local applications only reach the irritated surface; the right remedy must be taken internally.

Swift's Specific (S. S. S.) is the right remedy for Catarrh. It cures the most obstinate cases by going direct to the cause of the trouble—the blood—and forcing out the disease. Those who have met with so much disappointment from local treatment should throw aside their sprays, washes and inhaling mixtures and take S. S. S. A cure will result. Send for free books. Address Swift Specific Company, Atlanta, Georgia.

KENTUCKY POLITICS.

List of the Present Democratic Aspirants for the Various State Offices.

The Legislature.

Frankfort, Ky., Jan. 4.—Early in the new year the candidates for the Democratic nomination for the State offices will begin an active canvass of the State, although the convention will not be held before June, and possibly later.

Other candidates are expected to announce themselves later on, but the following list shows those already in the race:

For Governor—William Goebel, of Kenton; P. W. Hardin, of Mercer, and W. J. Stone, of Lyon.

For Lt. Governor—Thomas H. Hays, of Jefferson; William P. Thorne, of Henry, and J. C. W. Beckham, of Nelson.

For Auditor—John B. Chenault, of Madison; Gus. G. Coulter, of Graves, R. M. Collier, of Harrison, and June Gayle, of Owen.

For Attorney General—Jas. A. Scott, of Franklin; R. F. Peak, of Oldham, and W. M. Smith, of Louisville.

For Secretary of State—Green R. Keller, of Nicholas, and C. B. Hill, of Clark.

For Treasurer—Wilbur R. Hager, of Boyd; R. C. Ford, of Bell, and Gus. W. Richardson, of Meade.

For Superintendent of Public Instruction—John T. Gaines, of Louisville; G. W. Hickman, of McLean, and John M. Moore, of Ballard.

New Kentucky Railroad.

CONCESSIONS

To be Made by Louisville and Cincinnati Warehouses to Tobacco Growers.

Lexington, Ky., Jan. 4.—President Hawkins, of the Kentucky League of Tobacco Growers, who has been in Louisville in conference with the warehousemen, has returned, and reports favorable concessions made to the farmers. Secretary Lisle, of the Association, has been to Cincinnati on a similar errand and also reports a willingness on the part of warehousemen to extend more liberality. In an interview, President Hawkins said to-night:

"As you know, a committee of three was appointed to visit the warehousemen in Cincinnati, and a committee of three to visit those in Louisville yesterday. Mr. James L. Lisle, who was the chairman of the committee at Cincinnati, reports several concessions offered the growers of tobacco, members of the State League of Kentucky. First, they will supply to the grower money to carry his crop at 6 per cent interest per annum. Second, when the sale is made they will account to the seller for the amount of his tobacco less the actual sample, or in other words, they will pay the seller for the amount of tobacco they charge the purchaser. A further concession was made to the members of the League of $1.50 per hogshead as a drawback, or rebate. Our committee asked the Cincinnati warehousemen to let each hogshead of tobacco be sold on its own merits without being sold under the name of the seller. The warehousemen have this matter under consideration, and this change, if made, will go into effect February 1st.

"The committee from Louisville will report that they had a meeting with the warehousemen of that city, at which every warehouse in the city was represented. As a result of that conference, whilst a great deal was discussed pro and con, there was no action taken by the warehousemen, but they are to have a meeting, and expect to formulate some plan through which they can extend some inducements to the membership of the League to ship their tobacco to the open market and discontinue the sales in the country. I found the market very much depressed, and in a very unsatisfactory condition, and not buoyant, as had been reported. The warehousemen and buyers were pretty well agreed that the opening day was a blue day. I have before me a copy of a Louisville paper of Tuesday evening, January 3rd, and, quoting the market, they begin by saying: 'The offerings of tobacco were of moderate size, the market manifested much strength and animation and sales effected were usually at satisfactory prices,' and so forth. The facts in the case are quite the contrary.

Tell Us the News.

The Mt. Sterling Sentinel-Democrat has the following which is applicable here as well as there:

"Well, yes, we have sometimes in the past missed little items of news that would have been of interest to some people, if not the whole world. We sometimes miss finding out that a wedding has taken place, for the reason that the groom slips into the Clerk's office after everybody has gone to bed, or when no one is there but the official, and he pledged to secrecy. And then we have missed recording deaths simply for the reason that we do not make it a habit to lie around an undertaking establishment. And we sometimes fail to get the goings and comings of the people for the reasons that they go or come at night, or perhaps get on the train from the far side. We frequently fail to get an account of some man whipping his wife for the reason that the good woman will say nothing to us of her troubles along this line. It is frequently the case that people are sick and we know nothing about it until they come in and raise a kick that it was not mentioned in the paper. While we know a whole lot and a lot that will not do to publish, yet there are many things occurring in this great, big world that we can know nothing of, unless some one tells of it. When you go to marry, if you will send us an invitation to be present and witness the ceremony, or send us an ...

When You Have a Bad Cold

To Pension Employes.

(New York cor. Chicago Chronicle.)

The Siegel-Cooper Company will announce to its employes to-morrow that the President of the concern, Henry Siegel, has set apart an endowment fund of $200,000 for the purpose of pensioning for life such employes as have served ten years or more and have proved themselves worthy. This endowment fund is protected by a life insurance policy of $200,000, which Mr. Siegel has taken out. The amount is payable at the death of Mr. Siegel or at the maturity of the policy, Jan. 1, 1919.

This announcement was made to the employes of the store as a New Year's gift from Mr. Siegel, and will be in the nature of a surprise. Each employe will be presented also with a life insurance policy for $1,000, the premium of which has been paid for the first year by the Siegel-Cooper Company.

During the lifetime of Mr. Siegel the pension fund is to be in his hand and to remain under his sole charge and control. Upon his death or upon the maturity of his policy the fund is to pass into the hands of a Board of Trustees, to be administered according to lines already formulated in the rough by Mr. Siegel. A board consisting of all the heads of departments of the store shall award the pensions.
