Help... Nature

Babies and children need proper food, easily assimilated. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF PURE COD LIVER OIL

will generally correct this difficulty.

If you will put from one bottle to half a dozen into your baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to one ounce, according to the amount of the deficiency, will give you the same results. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once upon mother and child.

CASTORIA

For Infants and Children

The Kidney and Bladder

W. J. L. Lippincott

About the Book

Every parent who has a child under the age of five years should read this book. It is a practical guide to the care of the child, from birth to the age of five. It covers all the important points of child care, from the first breath to the first steps. It is written in a simple, plain language, and is illustrated with many beautiful pictures. It is a book that every parent should have on their shelves.
