S. P. BAIRD, Druggist, Main St., Carlisle, Ky.

Consumption is destruction of lung by a growing germ, precisely as rotting causes destruction of others by a growing germ. If you kill the germ, you stop the consumption. You can or can't, according to what you begin with.

It is as if you had a growing germ in your lungs, and it was eating up your lungs. You would not know it until it was too late.

There are others who have recovered their health after years of suffering. They have recovered their health after years of suffering.
