A Mt. Sterling woman writes of Natch-ure. Abundant success seems about to crown the efforts of the Mt. Sterling Mother Hen and that company. Last summer each subscriber got a dozen eggs, walks in like any, and later on another dozen chickens, and so on. Now the company has a capital stock of $10,000 and the hatchery. Mr. Lewis Craig, an Indiana old soldier, is the manager of the hatchery and owns on the night look after the fires. Mr. Craig has probably a third that was into Fort Sumter, Charleston harbor, with the first relief fleet. Mr. Craig has the first incubator ever brought to Kentucky. There are fifteen or twenty machines in the county now.

They helped me from the first dose. In a few days I was entirely cured. Now I eat, sleep well, and am as strong as ever. Sold by Thomas & Son, druggists.

You will find that it pays to read our ads. Here is a case in point: Mr. Ed Rigney, of Rigney & Co., Lodi, Ind., has been troubled with a bad cough for years. He says: "I have tried all kinds of cough medicines, but never found any that would do me any good until I got a sample bottle of Dr. King's New Discovery. After using it a few days I was entirely cured." Sold by Thomas & Son, druggists.

Every one knows that Electric Bitters are the best. Listen to what they will do: Mr. Jno. Bell, Lodi, Ind., says: "Electric Bitters has done me more good than anything I ever used
