Foolishness.

"Some of the Farmingdump men" are boycotting the Home Democrat because editor Duff printed the truth in regard to small pox in that town.

If the above item is true "some of the Merchants of Farmingdump" are acting very unwise. Newspapers are no more molded people about small pox reports than they can fly, and the truth about the matter is better for the town than falsehood. Such boycotting is ridiculous—usually very well-and the county paper has served its patrons by telling the facts. Some folks are constantly ready to intimate that the Reporter because Duff has violated the rule of his life.

Judge Kennedy Entertained.

The Doddlestown bar this notice is due last week.

Judge L. P. Fryer gave a big dinner party at the residence of his home in the Hotel on the corner of the street for the purpose of entertaining the members of the bar. The occasion was a very pleasant one. Judge Kennedy is holding his first term of Court in Fredonia. A delightful menu was served under the skilled direction of Mrs. Fryer and a most enjoyable evening was spent.

The Courier Journal says—Dan Dutton, of Indiana, is said to have decided on the corner in the event the organization are presented for W. H. Taylor and the other Kentucky fugitives. It is believed he will honor a request for their release. Former Democracy his vote to Washington is not to be forgotten, and he will be expected to contribute to their support. Dan is ambitious for Taylor. Mr. Dutton says he does not believe the evidence in the Rigby case will make a change in the status of the case.

Prosperity.

A New York special of April 16th says—Increasing the financial confidence, Mr. Pillsbury, the wheat king, is making developments in the business world last week were prominent and largely favorable. From every part of the country came the story of great acreage, of abundance of money and of opportunity in all the forms. The most important news, of course, was the announcement that the output of the winter wheat on April 1, which practically means the harvest of next July, will be 100,000,000 bushels greater than the probable bushels last year. It can be safely predicted that the spring wheat crop will be entirely fulfilled, but the fact remains that present conditions are for the largest harvest of winter wheat and our country has ever known.

Generally speaking, Mr. King says, industrial conditions were never brighter at this season of the year than they are at present.

Christian's county convicts, composed of Democrats and Republicans, have nominated the county ticket and will support the Democratic County Committee to endorse the candidates—Chicago Times.

Down in Christian Republicans are asked to vote with the Democrats, while down in Nebraska a party of self-assessed bosses refused to Democrats voting.

George M. Thomas, Solicitor of Internal Revenue for the Pittsburg district, has resigned to be head of President McKinley's campaign. Former Congressman Samuel J. Pugh, will probably be his successor.

The Centre Reporter's Washington correspondent now says that an Indiana man has been put down the throat of Senator M. Thomas, and which was brought to be good as stuffed by Senator J. Pugh.

MAYDOLE'S HAMMER.

(Tennie's Pirate in Paris Matin.)

When Maydole was told that he made "a hammer that would drive a nail with a single blow," he said humanely: "I make the best hammer that ever was made."

Maydole's hammer is the best. He knows it. He knows it by experience. He tested, perfectly balanced, and the head will give its makers a chance to drive a nail with a single blow. Maydole's hammers are guaranteed by the same company like most of the products of the U. S. A. with perfect confidence that it will prove worth from the first blow to the last. Maydole's hammers are made of the finest steel, and because they are the best they are sold by all dealers in hardware.
