Solid Fact.

Glasgow Times: Twenty-four years ago the income tax was put on the free list. At that time the market price was $1 per ounce; today it is fifty cents per ounce. Is it a coincidence that the decline in silver coincided with the income tax? Not by some means; today it is fifty cents per ounce, and the whole country was clamoring that something be done, a Republican congress saved the situation by restoring the tariff on coal and silver and put it on the free list. It did this for the reason that free coal and free silver would benefit the whole people, while protection only benefited those who had control of the tariff. It is a fact that the income tax was first levied by Republican congress and has never been repealed but once and then it was only for a short time.

TYE Favorite County Grand Jury, in session this week, declared that the present jail at Mayo Dumas was reasonably secure, but that something of the kind should be done at once and that the only authority for such action was vested in the Board of Commissioners. The jury was out but a short time and finally came in with a verdict of a recommendation that the body be ordered up to the fresh paint and nail brigade. Ex. "Why, Johnny, how did you lose your hat?" "Aw," said Johnny, "I was playin' ball, an' I hit it with a stick."

READY THROUGH.

Twould Spoil the Story to Tell it in Any Heathen Manner.

To see an eighteenth century pirate in his native haunts and one of the kind a South Victoria lives in the present day, is a story very much out of the present. It's a short time ago, Tim Farrelly, of the Victoria Hotel, Victoria, Ia., had occasion to go to Galveston on business, and while there he met a native Corpus Christi Greaser. "Last June," said Tim, "I was in Galveston on business and while there I met a native Corpus Christi Greaser. He had never been out of his native town and he told me how the people there lived. I thought I would go down and see how they lived myself, so I went down to Corpus Christi by rail. I thereby found the manufacturer of the Corpus Christi Greaser, and after placing a grand order with my friends, I started to return home. I slept all the way from Corpus Christi to Victoria, but when I got to Victoria I was still very ill and never so glad to get home in my life. I stayed there for a week and then started for Galveston. I was not feeling very well when I left Victoria, but I thought I would be all right when I got to Galveston. I was mistaken, however, for I was worse than ever when I got there. I was in bed for a week before I was able to be around. I then started for home. I was feeling very well when I left Galveston, but when I got to Victoria I was worse than ever
