How to Get Taylor and Finley

Mr. Ralph R. Gregory, a prominent criminal lawyer of Indiana, has discovered a law among the statutes of that State (its existence has been heretofore overlooked on account of being improperly indexed) which, he thinks, will compel Gov. Durbin to honor a requisition from the Governor of Kentucky for the surrender of Taylor and Finley, who are wanted in connection with the Goebel assassination. It reads as follows and seems to meet the case:

"When a criminal of another State is arrested in this state on a warrant made out by any one before a justice of the peace or a circuit court judge it shall be the duty of the governor to notify the governor of the State in which the crime was committed and to deliver the prisoner whenever the requisition is made."—[Georgetown Times.

Sunshine in Daily Life.

Did you ever stop and think how a cheery word spoken by wife or husband in the morning, as the husband goes out to the busy cares of the day, will follow the one spoken to through the entire day? It may be some word of compliment from the husband about the "good breakfast" provided by the wife. It may be a kind suggestion from the husband—"Don't undertake too much work and get sick. I hope the time will come when I can hire some one." On the other hand, how much heart pain can be caused by a snappy or snarl at the breakfast hour. The words of fault-finding will ring in the ears the live-long day. As you begin the day let the sunshine into the soul, and don't be selfish about it, but let a little out now and then in direct reflection upon those about you. Smile as you pass by. Speak and smile to children, and try to encourage him who toils by your side in less fortunate circumstances than you are surrounded by.—[Exchange.

One Minute Cough cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough cure is pleasant to take, harmless and good alike for young and old. S. P. Baird.

THE Christian Observer—and it looks like that ought to be fairly good authority—says the gross earnings of the railroads of the country are about 12½ per cent of the capital invested, while the gross earnings of the farms were more than 18 per cent. of the investment. This gives The Observer the impression that the substantial profits of farming are better than those of railroad stocks. But the religious contemporary overlooks another great advantage in favor of the farmer. Whenever a drunken hobo is killed while stealing a ride on its cars, the Railroad Company is sued for from $5,000 to $25,000 for damages, while nobody ever thinks of suing the farmer for damages when he kills a tramp for trespassing on his property and stealing a chicken.

DeWitt's Witch Hazel Salve

The only positive cure for blind, bleeding, itching and protruding piles, cuts, burns, bruises, eczema and all abrasions of the skin. DeWitt's is the only Witch Hazel Salve that is made from the pure, unadulterated witch hazel—all others are counterfeits. DeWitt's Witch Hazel Salve is made to cure—counterfeits are made to sell. S. P. Baird.

D. BRADLEY SHAWHAN, attorney for State Revenue Agent Albritton, has filed suit at Owingsville against George G. Hamilton, for back taxes on $350,000 worth of property belonging to the estate of the late Henry Worthington, of Covington, of whose estate Hamilton is trustee, and on $250,000 belonging to his daughter, Miss Robin Hamilton, as guardian. It is said the taxes will amount to $12,000.

To the Temperance People of Kentucky.

Allow me to call your attention to one of the most important bills affecting the general liquor question, in a general way for years past, viz: The Hepburn Bill known as H. R. 15,331. It is an amendment to the Wilson Bill of 1890, relating to the shipment of intoxicating liquors from one State to another in original packages. The amendment places all such shipments upon their arrival within the boundary of any State or Territory subject to the laws of such State or Territory as though produced within their bounds, and that all corporations engaged in interstate commerce shall as to any shipment of liquors, be subject to all laws and police regulations with reference to such liquors or the shipment thereof, of the State in which the place of destination is situated, and shall not be exempt therefrom by reason of such liquors first introduced therein in original packages or otherwise.

This bill passed the House of Representatives on the 27th of January and has been referred to the Committee on Interstate Commerce of the Senate. It is of the first importance that this bill should pass the Senate and become a law at this session of Congress.

Let every minister and other Conference voter in Kentucky write a brief, courteous appeal to Senators W. J. Deboe and J. C. S. Blackburn, urging them to do all in their power to bring this measure to a vote and to secure its enactment into law. The object of the measure is to make State and local legislation upon the liquor question effective, and it can never be fully so without such remedial legislation by Congress. Brethren: Don't put this off until to-morrow the time is short, it will take but a few moments. Sit down and write to our Senators to-day. Hurriedly yours, G. W. YOUNG, Field Secretary.

Cancer Cured.

Mr. W. W. Prickett, Smithfield, Ill., writes, Sept. 10th, 1901: "I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg and through an accident, I rubbed some of the liniment on the cancer, and as it gave me almost instant relief, I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and there is not the slightest scar left. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended." 25c, 50c and $1.00. For sale by Tureman & Son.

THERE is a person residing in Greenup who has a number of hens, and he heard that to place Venetian red in the drinking water for chickens would keep off disease and improve the health of his chickens. He tried it, putting a large quantity of the powder in the water. The chickens did not take kindly to the colored water, except one hen that appeared to have a natural fondness for the liquid. She drank frequently and long of it, with the result that what should be the white of her eggs, is a beautiful Venetian red. This is no exaggerated statement, but a fact.—[Greenup Gazette.

A Weak Stomach

causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach, and wards off and overcomes disease. J. B. Taylor, a prominent merchant of Chriesman, Tex., says: "I could not eat because of a weak stomach. I lost all strength and run down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol I concluded to try it. The first bottle benefitted me, and after taking four bottles I am fully restored to my usual strength, weight and health." S. P. Baird.

Million Dollar Hotel for St. Louis.

[St. Louis Globe-Democrat.]

The new downtown hotel promoted by World's Fair officials and public-spirited citizens, will be located at Twelfth and Locust streets, occupying a full half block.

Ten days it has been financed, the company organized, the plans begun and the site selected.

The site comprises half a block on the west side of Twelfth street, extending from St. Charles to Locust. The building will be constructed in the most modern style in every respect. It will contain 400 rooms, will be twelve stories in height, and every room will be connected with a bath. The entire building will be used for hotel purposes, and no portion of the building will be rented for any other business. In this respect it will be unique and most attractive.

The location selected has been leased for ninety-nine years at $22,000 per annum and the building will cost, irrespective of the land, $1,000,000.

True as the Clock.

Cyrus W. Field said that he considered half of his success in life due to his punctuality. He was always at his office at the very minute each morning, and if he made an appointment to talk business to a man he never failed to keep it.

"I have made thousands upon thousands of dollars by being on hand at the right moment," he says, "and I consider punctuality as strong a point in a business man's favor as well, it is second only to honesty."

Once that your employer understands that you are faithful in getting to work at the hour he has engaged you to begin, he will have more confidence in you, and your chances of promotion will be far better than those of the boy who sneaks in a half hour late each morning, with some poor excuse for his tardiness.—[On Timer's Tribe Monthly.

Weak and Tired People

We suppose all the women who take care of a family and do their own work are pretty tired come night, but we are specially sorry for those who don't feel rested in the morning.

"Do you suppose your Vinol would do me any good?" said a woman customer the other day. "I just drag round. My work seems an awful burden."

"We think Vinol will help you," said our clerk. "Our folks at home use it. We have such faith in it that we will pay the money back if it doesn't help you."

She took a bottle of Vinol home, and has since bought another bottle.

Vinol was sold last year on the same guarantee. How many "refunds" were there, do you think? Less than two per cent.

In other words, Vinol did successful work in ninety-eight cases out of one hundred.

For two great classes, those who can't seem to gain strength and those who are tired at nothing, we say: "Try Vinol on our guarantee."

For weak women, nursing mothers, old people, and puny children we have found nothing to equal Vinol.

PROFIT
The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit. The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science. But how about the children? Are they fed according to science, a bone food if bones are soft and weak and a blood food if there is anemia? Scott's Emulsion is a mixed food: the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.
