Simon Withdraws.

Cynthiana, Ky., April 24th, 1903.
To the Democracy of the 18th Judicial District of Kentucky:

I take this means of making known that I am no longer a candidate for the nomination for Circuit Judge before the primary on May the 9th. I have stated from time to time to my friends "that if at any time I came to the conclusion, or convinced that I could not win the race, or that the result narrowed down between the other candidates, I would then decline to pursue my candidacy any further, and get out of the race."

Since the last meeting of the District Committee, feeling of distrust, to say the least of it, has run high, and I have been advised by many of my friends that I could not win the race unless I resorted to means that no candidate for that high position should. Therefore, in view of these facts, and the further fact that I may not be further unjustly accused of being a candidate in the interest of either of the other candidates, I have come to the conclusion that it is best for me to withdraw. I want to say, and I desire that it be distinctly understood, that I will take no part in the race for either of the other candidates.

Thanking my friends for the aid and support they have given me in the race, and the people generally for the courtesies extended, and with a sincere wish for the success of the party, I am,

Obediently yours,
J. T. SIMON.

Kentucky Tobacco is King.

The St. Louis World's Fair officials have paid Kentucky tobacco the highest compliment possible in the Agricultural building at the exposition. Ten thousand square feet will be devoted to a collective exhibit of tobacco from all over the United States. One half of this space has been assigned to Kentucky. Mr. Charles D. Campbell, of Louisville, is chairman of the tobacco exhibit committee of the Kentucky Exhibit association, and, with the assistance of his committee, is taking full advantage of the recognition made the Blue Grass State in its importance as a tobacco-growing commonwealth.

Maple Sugar Biscuit.

Now that maple sugar time is here, a recipe for maple sugar biscuits seems in order. Make a very rich, tender baking powder crust, using milk instead of water. Roll out about half the thickness of the ordinary biscuit and cut into shape with the cover of a quarter-pound baking powder can. As every other biscuit is cut out, spread a layer of grated maple sugar on top. Now moisten the next biscuit and press it down on a sugar coated one. Press close together in the pan, so the biscuit will rise instead of spreading. Bake in a quick oven until the toothsome biscuits are nicely brown, but not hard. Serve piping hot with saucers of warm maple syrup.—[Conkey's Home Journal for May.

A Troublesome Law.

A law that should be kept in mind by all who have building done, is the mechanic's lien law. By this law a workman or person who furnishes the material for a house may file a lein for the value of his work or material any time, within six months. A great many people are ignorant of this law and when the house is finished they pay the contractor without knowing whether he has paid his workmen or has paid for his material of which the house is built. Perhaps the proper thing to do would be to require a bond of the contractor to guard against such contingencies.

The National Debt.

The United States has one of the smallest national debts in the world. It is equal to only $12 per capita. The per capita debt of England is $74, of France $150, and of Australia $263. Australia has the largest per capita debt in the world. The United States debt was largest in 1865, when the civil war had piled up $2,381,000,000, or $78 per capita. The civil war debt was rapidly paid, and in 1893 it had fallen to $580,000,000. It was increased to $1,046,000,000 by the Spanish war, but has fallen again to about $900,000,000.

In 1865 the average interest paid by the Government was 7.3 per cent. Now half the debt bears only 2 per cent interest, and the United States is the only nation in the world that has been able to sell a 2 per cent bond at par. In 1865 the interest on the national debt was $150,000,000 a year, or about $4.29 per capita; and now the interest per capita is only thirty five cents a year.—[N. Y. Commercial.

Special One-way Rates to The Southwest.

On the first and third Tuesdays in November and December, 1902, and January, February, March and April, 1903, the Missouri Pacific Ry. will have on sale special one-way settlers tickets to points in Arkansas, Texas, Louisiana, Southwest Missouri, Oklahoma and Indian Territory. Write for rates and maps.

A. A. GALLAGHER, D. P. A. Mo. Pac. Ry. 419 Walnut St., Cincinnati, O.

Vaccination.

The Courier Journal says: "Smallpox in a malignant form was so prevalent in Cleveland last year that there were 1,248 cases, with 224 deaths. In August 179 physicians were appointed as public vaccinators, and they did their work so thoroughly that they vaccinated 195,000 persons at the city's expense. The result was that in three months following their appointment the disease was practically stamped out. Still there are some people who are violently opposed to vaccination.

THE OLD RELIABLE
ROYAL BAKING POWDER
Absolutely Pure
THERE IS NO SUBSTITUTE.

One Exhibit to Cost $10,000.

Kentucky will have the distinction of installing one of the largest refrigerating machines to be shown at the World's fair. Mr. Gardner T. Voorhees, the refrigerating engineer and expert in charge of the refrigerating department at the exposition, was in Louisville a short time ago and invited the Henry Vogt Machine company to put in a 200 ton refrigerating machine at the fair. The invitation was accepted and a contract signed to that effect. A machine of 200 tons refrigerating capacity is about equivalent to a machine that will make 100 tons of ice each 24 hours. The Henry Vogt Machine company will expend $10,000 in making the exhibit.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It it will cure you of indigestion and dyspepsia and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by S. P. Baird.

The financial loss to the planters, merchants and railroads in the area affected by the recent floods in the Mississippi valley is estimated at considerably over $25,000,000. The loss will fall most heavily upon the sugar and cotton plantations, some of the best in the State having been inundated.

The average Kentuckian admires a fighter, and detests a quitter. Breckinridge and Hendrick, who recently quit the Gubernatorial race, couldn't muster a corporal's guard now for any office they might seek. It begins to look like their so called friends simply worked a shrewd political trick on them to get them both off the track.—[Bulletin.

Meaning of Education.

"Education means the free right training of every child in the commonwealth; but it means a great deal more than this. It means the assertion of the community against the lawless individual—the community's authority. The State must tax; it must educate.

"An aristocracy in a democracy means a group of privileged persons; outside this group, the bully; behind the bully an ignorant populace that will elect the bully to office, will hold him in honor and will acquit him of crime."—[Walter H. Page.

Will They Kick?

The rural delivery carriers are up against a hard proposition. A dispatch from Washington says:

"First Assistant Postmaster General Wynne has issued the following order: Special delivery mail addressed to bona fide patrons of rural routes will be delivered by rural carriers at patrons' residences, without regard to their distances from the routes. A bona fide patron of the rural service is one who has properly erected on a rural route a mail box which has received the approval of the Postoffice Department for use on such routes."

In some cases box-holders live one to two miles away from the rural delivery route, and in that case it would be quite a hardship for the rural carrier to make the delivery, besides delaying the service on the rest of the line.—[Flemingsburg Times-Democrat.

Western railroads, in view of the enormous wheat crop anticipated in the United States, have already spent nearly two hundred million dollars for additional rolling stock to carry the crop from the exterior to the shipping points. It is estimated that the crop will exceed 800,000,000 bushels, about a fifth more than has ever been produced before. The problem of handling this enormous yield, without a serious freight congestion, is troubling the roads of the West.

The total wealth of the world has been estimated at $320,000,000,000. Of this total the greater part is owned by Americans and Europeans. The United States has somewhere near $100,000,000,000, or about one-fourth of the whole.

A Little Early Riser

now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by S. P. Baird.

The Wastes of the Body

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by S. P. Baird.

A Giant Nerve Builder.

The Mystic Life Renewer is the most Powerful Nerve Builder known. It absolutely cures all forms of Nervous Diseases and Weaknesses no matter how aggravated or how long duration, such as Neuralgia, Nervous Prostration, Nervous Paroxysms, St. Vitus' Dance, Palpitation of the heart, Physical and Mental Weakness, Debility of Old Age, Etc. Sold by Tureman & Son, druggists.
