### The Latest

Herby Myers returned from Lexington at noon today, but had no information to give concerning the proposed sale of the pool tables further than that the "officers were satisfied."  
Ex Governor Beckham has gone to Panama and J. A. Groves McLean is to follow close upon the heels of the former.  
Texas Democratic Senator Jas. Bailey, for President. We wonder if this includes his usual rumpled hat and coat.  
Nothing worse than half of the female family, but the success of the other half. It is real surprising to find the most successful man or woman get along alone.

We could get half price for publishing all the stuff we could get from the press, could we not? Well, we could not get it unless we were content with that to have to work.  
Ed. Shinnick of the Shelby Record, is partly through to receive his editorial under the head of "Kellerman," and has not been able to get any of these special articles we had promised him as "Christmas Kisms."  
The Carlisle Corporation for the Louisville Courier-Journal has reduced the tobacco crop in this county from fifty per cent to twenty-five, and predicts that the early frost will catch every man that gambles. We have not heard these fearful reports until we feel that we are losing heart.

Judge Saml Wilson, of Lexington, is the latest to devote attention to the proposed reorganization of the Court of Appeals.  
The plan is to divide the high courts into two divisions, one to be called the "Court of Appeals" and the other the "Court of Review."  
A Boston young couple propose to get married and take their wedding tour in an airplane. We trust they will be fortunate enough to find a soft landing when they get down, and that they may not continue their wedding fly with a funeral march.

Someday has taken the train for a run to Cumberland Falls. Sparks that the Mercury was in a bad condition of the times, which we think Mr. Sparks has done us a great deal of good in this respect. We hope he will not get into any of the mischief that he has done in the past, and that he will not get into any of the mischief that he has done in the past.

The Tobacco Sale  
The Lexington Tobacco Factory report about the sale of the tobacco crop. The report was placed on exhibition Tuesday with the price of the tobacco. Under most opposition the meeting closed at 10 o'clock. The Lexington Tobacco Factory has been organized and is now in the process of making arrangements for the sale of the tobacco crop.
