SYNOPSIS

A private view of the "Charm" is given in this story. The "Charm" is a small boat which has been built for the purpose of being used as a pleasure boat. It is a very beautiful boat and is built of the finest materials. The story follows the adventures of the "Charm" and its crew as they sail along the coast of Giance.

CHAPTER XIII—Continued

"Good morning," she said, and looked up at him with a smile. "I am glad to see you back. How was the trip?"

"Very good," he answered. "I had a most interesting time. I saw some beautiful scenery and met some very nice people. I am glad to be back and to see you again."

"I am glad to hear that," she said. "I hope you had a most successful trip. I am sure you did. I am glad to see you back and to see you again."

## SANITATION IN SCHOOLS

Physical Health and Strength are the Basis of a Vigorous Education

Keeping the school in general health is important to the general health of the nation. The school is the place where the child is first introduced to the world of knowledge and where the foundation is laid for the future. It is therefore essential that the school be kept in a state of good health and that the children be given the best possible environment in which to grow and develop.

One of the most important factors in the health of the school is the physical health of the children. This is not only a matter of the children's own health, but also of the health of the nation as a whole. A healthy child is a happy child, and a happy child is a child who is able to learn and to grow.

It is therefore the duty of the school authorities to take the most effective measures to insure the physical health of the children. This includes the provision of a clean and sanitary environment, the maintenance of proper ventilation and lighting, and the provision of adequate physical education and recreation.

By taking these measures, the school can insure the physical health of the children and thus provide the best possible environment for their education. This is the only way to insure the health and strength of the nation for the future.

## TIMELY SUGGESTIONS THAT WILL HELP THE HOSTESS

A Cup and Saucer Shows

A charming suggestion for a hostess is to serve a cup and saucer. This is not only a practical suggestion, but also a decorative one. A cup and saucer can be used to serve coffee, tea, or a light refreshment. It is also a decorative touch that can be used to enhance the appearance of the table.

Another suggestion is to use a decorative centerpiece. This can be a vase of flowers, a centerpiece of fruit, or a decorative arrangement of objects. A centerpiece can be used to draw the eye to the center of the table and to create a focal point for the dining room.

It is also a good idea to use decorative placemats. These can be used to protect the tablecloth and to add a decorative touch to the table setting. Placemats can be made of a variety of materials and can be decorated in a variety of ways.

Finally, it is a good idea to use decorative napkins. These can be used to add a decorative touch to the table setting and to protect the tablecloth. Napkins can be made of a variety of materials and can be decorated in a variety of ways.

By following these suggestions, a hostess can create a beautiful and inviting dining room. This will make the dining experience a most enjoyable one for all those who are seated at the table.

## Net Income \$3,000

From 28 Acres of California Land

The original price per acre was \$60. Planted to peaches, pears, grapes and pears it yields \$3,000 a year net, and would be cheap at \$200 an acre.

This is only one example of what has been done in a climate that drows tourists from all over the world. The land is fertile and the climate is perfect for growing fruit. This is a great investment opportunity for those who are looking for a profitable and low-risk investment.
