Big Smoke in Robertson Count Ky.

On last Saturday while Steve Dan Curtis, El Overby and Ode Fryman were fishing in Johnson branch near the residence of Mrs Newt Taylor, they espied a column of smoke rising from a ferny, said pile on the bluff side and just near the back of the creek. On going to that place they saw a long stick and rag in order to the top of the pile. Without any further exercise we knew we had struck something from hotsight. As the sight were too heavy to lift we moved it without help, then rolled it from an old iron wheel they had near by.

A number of men collected about Taylor's Store and Chamberlain's Store, at once started with the pile. Among those were Messrs Natan and Cleve Taylor, Green Fryman, Parr, Walter, Frank and Will Curtis, Riley Robertson and others. When they reached the mill yard Chas. Overby and Will Curtis got on top the pile and commenced tearing it down. Just as soon as this work was begun all the crowd heard that some mysterious noise that the lows had described. All the others then gathered sticks and clubs to kill the strange "varmint" should any be found beneath the pile. Just as they reached the bottom, and were in the act of tearing out the last of the slabs, they caught a momentary glimpse of a monstrous spotted snake as it rapidly vanished down a hole under some large, shelving rocks. Determined to kill it, if possible, they sent for the boys to Taylor's Store, telling him to come down at once with tools to clear the rocks.

The story of the boys about the big snake produced so much excitement in the village, that a large crowd soon collected about the place, including them a Circuinnati drummer, who came with Forest Chamberlain, the Post master.

By the vigorous use of a pick, sledge hammer and a crow-bar, under the direction of Will Taylor, the rocks were soon loosened, broken and thrown out. Under them they discovered a cavity some three feet deep. At the bottom of this they saw two large blowing-vipers coiled, hissing and ready for battle. The drummer advised them not to kill them but to capture them alive if possible, telling them that the teenagers of the Zoo, at Cincinnati would pay a good price for them. Acting on his advice they went to Chamberlain's Store and brought out an empty grocer box. Then cutting some short-pronged forks and hooks, and by use of tongs they managed to get them in the box and carried up to Taylor's shop, where they are now be seen.

The snakes are religated to be no less than seven and a half to seven feet in length, and four to five inches in diameter at the thickest part of the body. They have flat, triangular-shaped heads, with sharp and dark, blue tails. Their bodies on the back and sides are covered with alternating brown and dark seam spots; the under side a light yellow. On one of them five colors are much more Printed than on the other. This is probably the male.

When touched with a stick, or the tail lightly, them if jarred, they immediately flatten out their heads and bodies, and emit a curious hissing sound.

In all they are the ugliest and most repulsive specimens of the snake tribe that the writer has ever seen.

Pilgm, Ky., July 17, 1911.

Story of a Dollar Bill

Ten years ago a farmer put his minims on a dollar bill. The next day he went to the nearest town and spent it with a merchant, before the year was out he sold the dollar back. Four times in six years the dollar came back to him for produce and three times he heard of it in the hands of neighbors. The last time he put it back, four years ago, he sent it to a mail order house. He has never seen that dollar since and never will. That dollar bill will never pay any more school tax for him; will never build or brighten any of the homes of the community. He sent it entirely out of the circle of his fellowship to himself and his neighbor when he sent it to a mail order house. Patronize your local merchant, who helps you pay your taxes, support your schools and churches and builds and the helping hand in times of sickness and trouble. --[St. Louis Lumberman.

Mt. Sterling Court.

There were on the market about four carde, with quality only fair. Tracing was slow but dull. Buffers were in heavy demand and sales were better along this line, the best buffers selling at from 4 to 6 cents, according to quality. Cows sold quickly at from 2 to 4 cents. There were about 1,500 sheep on the market, but trade was not good and few were sold. Shipers were only offering from $3.00 to $3.25 with sellers wanting from $3.50 upward. A few top grass sold at $3.60 per head.

SUGGEST BIG BARBECUE

Proposition To Have It Mark Campaign Opening in Ninth District

In the interest of a monster barbecue planned to be given at Blue Lick Springs, Nicholas county, by Ninth-district Democrats, provided the Democratic Campaign Committee approves, Forest R. Belser, Democratic nominee for Representative from Nicholas-Robertson district, and State Senator C. W. Mathers, of Carlisle, attended a meeting of the Democratic State Committee and nominees at the Louisville Hotel yesterday. The plan originated with Messrs. Keller and Mathers. They say it will take the enthusiasm orators to the people who do not often have an opportunity to hear the issues of the party.

The place suggested for the barbecue is away from the county towns, and will bring together the people of Fleming, Robertson, Mason, Bracken, Harrison and Bourbon counties, the five counties of Fleming, Robertson, Mason and Nicholas each feels is the place selected, and the latter, therefore, will take on more than county interest.

Thousands of persons will attend the barbecue, Mr. Belser said.

Senator Mathers and myself were surprised by the enthusiasm with which our suggestion was received. Within half an hour after it was made a dozen speaking dates and a 1,000 pound beef were offered by men who are able and willing to make good their promises. The Campaign Committee looks with favor upon our plan we feel confident that it will result in one of the biggest gatherings ever held in that section of the State.

The plan will be placed before the Campaign Committee when it has been organized, and if it approves the plan the barbecue will be fixed by it.--[Courier Journal, July 21.

$57,638.91
The Amount of Ed. J. Myall's Shortage in Citizen's Hank

Expert accountant John L. Fisher has finished his work of going over the books of the Citizens' National Bank, and finds that the shortage of Ed. Myall, late assistant cashier, amounts to $57,638.91.

He secured the money by drawing checks, mainly small ones, on an intermediate bank, but never putting on the ledger, and the result was, all depositors accounts were correct, except that there were forgeries in the clerical error.

The books were only examined back to 1895, and all the time he was taking money in the fake check route. He never took it in currency amounts, but seldom missed less than $100 at a time.

During the month of January last there were 25 banking days, and on 24 of them he took money. From the 24th of February, 1896, to the time of his arrest he took $170,000, or more than $9,000 a year.

The deposits when the Citizens Bank assumed to the Bourbon amounted to $150,000. The amount $150,000 has been paid to the depositors, and the others have been notified that they can get their's at any time they apply. This settlement of the bank's affairs was certainly done in record breaking time, and Mr. Fisher and President Dockery Woodford are certainly to be congratulated on their excellent work.

The stockholders will be the only ones to lose by the shortage.

We have been asked to inquire about the funds of the Paris Cemetery Co., and find that they are correct to the cent, and not a dollar will be lost from that fund.

The Garth Fund held about 50 shares, and they will lose most of that.--[Paris Democrat.

The State Debt

It was announced Monday by Frank P. James, State Auditor, that by the time the present administration goes out of office next January all of the interest bearing warrants against the State will have been paid. At present the State owes in the form of interest bearing warrants, a total of about $1,400,000, and Mr. James says the State officials expect to wipe this out by January. Just how it to be done when the total seems to be growing each month instead of paying less, is not stated, but it is understood that the State administration does not want to go out of office with so large a debt to be assumed by the incoming officials. There is a State campaign on this fall and the Republicans know that the fact that the State is heavily in debt will be used as an argument against the election of the Republican ticket so arrangements are being made to take up the interest bearing warrants.--[Frankfort News-Journal.

Platform Convention Called

A platform convention to be held in Louisville August 15 was called Thursday to the Democratic State Committee at the request of the nominees, represented by former Senator Beckham, who heads the ticket. Rufus H. Vansant, of Ashland, was elected chairman of the campaign committee and Judge Lere T. Sullivan, of Richmond, vice chairman. Certificates of nomination were issued to all on the ticket after the results of the official tabulation of the primary vote had been announced.

The Louisville Courier Journal says:

Acting upon the suggestion of the party nominees represented by former Senator James B. McCreary, an informal conference of the Democratic State Central Committee in joint session Thursday afternoon, voted as a man in favor of a delegate convention for the purpose of drafting a Democratic platform, the convention was ordered held in Louisville Tuesday, August 15, and delegates to it are to be selected on the basis of one for every 300 voters and every fraction of 300 over 150 cast by the party at the Presidential election in 1908. They are to be named at mass conventions in every county except those in which there are two or more legislative districts. In such counties separate conventions will be held in each district. The mass conventions will be held on Saturday, August 12, beginning at 2 p. m.

Rufus H. Vansant, a wealthy lumberman of Ashland, at the request of the nominees, was made vice chairman. Mr. Vansant, Judge Sullivan and Judge McCreary, the latter Democratic nominee for Governor, are to name the remaining members of the committee, one from each Congressional District, and the secretary. Mr. Vansant was not in Louisville Thursday, but was notified by wire of his appointment.

Certificates of nominations were given to those who were successful in the primary July 1.

At the request of James P. Edwards, defeated candidate for Lieutenant-Governor, and Billy Lafloon, who was defeated for the nomination for State auditor, the sub-committee that had charge of the details incident to the primary went over the returns in those two races in the presence of Messrs. Edwards and Lafloon in order that they might satisfy themselves that they agreed with the official figures. At the conclusion of this work both Mr. Edwards and Mr. Lafloon went before the joint committee and stated that they had examined all claim to the two nominations. Mr. Edwards said he would make no fight on the success of the Democratic ticket this fall, and Mr. Lafloon made the same statement.

Henry F. Prewitt, chairman of the State Central Committee, and Reid G. Phillips, secretary, were instructed to notify the Secretary of State the names of the Democratic nominees.

Pure Mountain Brandy.
JOHN JOHNSON, Paris, Ky.

THE POULTRY SHOW

The poultry show at the Blue Grass Fair the week of August 7th to 12th is going to be a feature of unusual interest. A rich collection and beautiful prizes for all classes of poultry and persons have been open ed and every indication points to a record breaking entry list. Mr. Sam B. Lane, of Stoneland, Ind., has consented to judge the poultry. Dr. C. W. Tharp, of Lexington, will judge the pigeons. The show is being managed by men who have been successful in Blue Grass Poultry associations, who are thoroughly in touch with poultry conditions throughout the south and who feel sure of being able to bring to the Blue Grass fair such an entry list as will make a most creditable and desirable show.

WOMAN'S DEPARTMENT.

The Woman's department of the Blue Grass Fair, which will be held at Lexington the week of August 7th to 12th, is more extensive and important this year than ever before. The premium list has been improved and enlarged and classes added which will cover specifically almost every kind of women's work and take in every line. To this department it is also up to the third floor of the large Floral hall on the second floor of the building are attractive booths utilized by Lexington merchants for the display of their wares. As for two years past, this hall will be under the direction and management of Mr. O. Norton Barger in procedure to be seen and heard from every standpoint this year than ever before.

HALF FARE RATES TO FAIR.

Do not fail to visit the Blue Grass fair at Lexington, the week of August 7th to 12th. One-half fare rates will prevail on all railroads in Kentucky. Each afternoon, beginning with Tuesday, there will be aeroplane flights by the world renowned aviator, J. A. McCurdy. Each afternoon and evening, beginning with Sunday, August 6th, there will be magnificent band concerts by the renowned U. S. Marine band from Washington City.

U. S. MARINE BAND WILL PLAY AT THE BLUE GRASS FAIR

Coming of This Musical Organization Indicates Importance of the Big Exposition Week of August 7th to 12th

United States Marine Band, from Photograph Taken in Front of the White House, Washington D. C.

The most remarkable opportunity that has ever been offered the people of Kentucky in a musical way will be the appearance of the famous United States Marine Band, which comes to Lexington to play at the great Blue Grass Fair at Lexington throughout the week — August 7th to 12th. Considered by competent judges everywhere to be the best organization of the kind in the world, the band of the Marine Corps has attained a degree of excellence that puts it into intense musical prominence and during the term of its present leader, Lieut. William A. Santelmann, it has fully maintained the standards then set.

The mere statement that the Marine Band is coming to the Blue Grass Fair will carry with it a tremendous testimonial of the importance of the big exposition which will hold forth at Lexington during the second week in August. Never before has this noted organization appeared on the grounds of any fair—state, district or county. Indeed, only in instances of the largest expositions, such as the World's Fairs at Chicago and St. Louis, has it been heard outside of Washington. Its coming to Lexington is the result of three years of effort on the part of the management of the Blue Grass fair.

Three years ago the same gentlemen who have been responsible for each of the great three years to secure the Marine Band, but without success, until the present season. And in the instance of this it has been achieved only through the powerful influence of Champ Clark, speaker of the house of representatives, and through a committee sent to the nation's capital to secure the consent of the President.

Tobacco Trust Orders Buying Done in Warehouses and Open Markets.

A special from Frankfort says: "The American Tobacco company will buy no more tobacco in the field or in the loose-leaf houses. The tobacco must be brought to the market, and most of it will be sold in the loose-leaf houses. This information was given out Thursday, by M. H. Froman, of Ghent, who is here attending a meeting of the State Board of Immigration, Forestry and Agriculture, of which he is a member. Mr. Froman said that before leaving his home he received a letter to the agent of the American Tobacco Company in his county, telling him that in the future the purchases of the American Tobacco Company would be made in the warehouses and in open market."

Money For Roads

Senator Swanson of Virginia is advocating a bill for an annual appropriation of twenty millions of dollars by the general government for the improvement of post roads and rural delivery routes. The money could not be better spent. It would do a great deal more good than to waste it on stream that can not be made navigable as is done all the time. Besides it is as much for the public good as the improvement of creeks and rivers, if not more so.--Hartford Herald.

Senator Swanson's plan contemplates a great National road from the Lakes on the North to the Gulf of Mexico, and in its construction to macadamize the pike from Maysville to Lexington, making the once great thoroughfare forty feet wide and as smooth as a city street.

For Sterling or the State?

The school census of the State shows that there will be room for about one-fifth of the present enrollment of the State colleges.

Useful Refuse.

Liverpool collects a thousand tons of what a day. Nearly all of it is put to use.

School Consolidation In Kentucky

The consolidated school is being given a trial in Calloway county and the results so far have been entirely satisfactory.

Three small schools at which the average aggregate attendance was about fifty, were consolidated recently and a new and commodious building was erected at a point convenient to the pupils of the three districts amalgamated. The attendance at the new school is nearly double what it was at the three school-houses. Pupils and parents alike are pleased with the change, and it seems highly probable that there will be other consolidations in Calloway county in consequence of the gratifying outcome of the first experiment.

One good school is decidedly preferable to two weak ones. One good building is better than three shacks, raised schoolhouses by courtesy. There are too many shacks in Kentucky and there are too many poorly attended and poorly conducted schools. The consolidated plan has been a powerful force for educational advancement in every State wherein it has been given a fair trial. It will prove beneficial to Kentucky if it is adopted as part of the general system.—Louisville Herald and Ledger.

So far it has not been tested extensively in this State, but in the few instances where it has been put in operation it has proved successful.—[Courier Journal.

OBITUARY

On July 17, 1911, the death angel visited the home of Robert Campbell and wife and took from their midst their daughter, Sophia Lee Campbell, aged 16 years, seven months and eight days. She had been a sufferer for twelve months with that dreaded disease consumption. We can't see why the Lord should take her away from all things well. Grieve not as one who has no hope. We know that peace and where there is no more sorrow and pain, to await the coming of her loved ones. There they will meet, to be safe in the arms of Jesus. She was laid to rest in the family burying ground at the home of the bereaved parents.

"Every tear the Father calleth
Some loved one by endless rest,
Every sigh the Father heareth
Can but cry 'He knoweth best.'

But a year not distant cometh,
When we treat the vast unknown,
We shall find our ransomed dear one
Twelve round the great white throne.

A FRIEND.

It Did "Blew" Up

Gen. W. H. Bixby, chief engineer in charge of improving the Maine, has decided that she "blew up from within" and was not blown up by a mine placed by the Spaniards as supposed. Now isn't that "nice" for us? We have Cuba and the Philipines on our hands and the Spaniards on their hands, I guess.

Patate Imagination

Three shiploads of potatoes amounting to 3,000,000 bushels, are being shipped from Aroostook county, Maine, to Boston, New York and Ireland, to relieve the potato famine in Texas, where the entire potato crop was destroyed by hot weather. The shipments are to be made by the Maine Central railroad and the steamship lines.

SPEED PROGRAM

RUNNING RACES WILL BE GIVEN ON EACH OF THE SIX DAYS OF BLUE GRASS FAIR.

Each Day Will Witness a Cup Race Open to All Members of the Gentlemen's Driving Club of Lexington.

An excellent speed program has been arranged for the Blue Grass fair which will be held at Lexington the week of August 7th to 12th: On each of the six days will be given running races and on Monday, Tuesday, Wednesday, Thursday and Friday there will be races for light harness horses as well. On each of these days will be witnessed a cup race open to members of the Gentlemen's Driving Club of Lexington and one of the several races for which monetary prizes are offered.

The 2:16 trot is scheduled for the afternoon of Monday, August 7th, the two-year-old trot for Tuesday afternoon, the 2:20 pace for Wednesday, the three-year-old trot for Thursday and the 2:22 trot for Friday. In both the 2:16 trot and the two-year-old trot at the Blue Grass fair last year are records for the season were set there is every reason to believe that these events will be equally interesting this year. Many horses have been entered this year and will probably bring to gether a larger number of horses.

The most attractive feature in the line of running events will be the special race for gentlemen riders, which has been gotten up at the request of members of the Lexington Polo club In this club are being developed a number of expert horsemen and the Gentlemen's Cup race will bring together eight or ten of these, mounted on some of the best thoroughbreds to be found in Central Kentucky. This race will be put on Monday afternoon, the opening day of the fair, and is certain to prove one of the most attractive features witnessed during the week.

Bad Spells

"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 28 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years! Cardui relieved me, when everything else failed."

TAKE CARDUI The Woman's Tonic
If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy, for women, has been used by thousands of weak and ailing sufferers. They found it of real value in relieving their aches and Slate, but in the cases mentioned, it has relieved instances where it has been put in- where it has been put in- ly favorable.—[Courier Journal. and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.

Oklahoma Crops a Failure

Mr. and Mrs. H. C. Terhune of Salvia, have returned from a seven weeks' visit in Missouri, Kansas and Oklahoma. They visited many relatives whom they had not seen for many years, and altogether had a very enjoyable trip. Mr. Terhune says that the crops are a failure in Oklahoma, due to the extreme hot weather, corn and cotton are a complete failure, and the yield of wheat and oats will be very small. Mr. Terhune says that in Oklahoma the dust is about knee deep and people are feeding their cows and other stock on cotton seed. He predicts that within the next year thousands of people will leave that country and return to their old homes.--[Harrodsburg Democrat.
