Most Important Happenings Told in Brief

Washington

Letter received in New York City from former Congressman Charles L. McNamara indicates that he has decided to take his present appointment in the United States Customs and Border Protection. Mr. McNamara had been in the service of the United States Customs and Border Protection for several years.

At the annual meeting of the National Education Association, which was held in New York City, the delegates passed a resolution endorsing the National Education Association's policy of non-interference in the selection of school boards.

The House at Washington passed a bill to provide for the extension of the National Education Association's charter for a period of five years.

Secretary of the Interior Charles D. Ickes announced that he had received a report from the geological survey that the oil resources of the United States are estimated to be sufficient for a period of 50 years.

The Senate at Washington passed a bill to provide for the extension of the National Education Association's charter for a period of five years.
