The Lobby At Work

For the first time in the history of the state the lobby, of Third or Fourth House of the General Assembly is at work trying to dictate to the members who they shall vote for for Speaker of the House. Their emissaries are not only trying to mislead the people, but they are trying to browbeat and bulldoze the Members, and they may succeed in misleading some of those who are not onto their game.

A splendid line of fine candies at Metcalfe & Berry's.

Our New Continued Story

We begin in the paper on this week with a most interesting continued story by Harry Irvine Greene, one of the most popular writers of fiction and we want you to begin with the first number. Besides this story we give you some most interesting Christmas reading, a world of foreign and domestic news, local and editorial matter and other information. We ask you to look over the Mercury with a view to getting it and stay in your heart whether it is a good county paper or not. We want your candid judgment and your patronage if we merit it.

We point with pride to our choice selection of Men's Furnishings for the Holiday Trade. "Shop early and get the choice."

The Loose Leaf Warehouse

The Carlisle Loose Leaf Tobacco Warehouse is rest approaching completion and will be ready for the opening on the 2nd of January.

The Board on Saturday last voted to add a pricing outfit in the basement and work is being pushed.

Several loads of tobacco have been received and stored in the old continental warehouse where it is being placed in baskets for the opening sale.

The management request us to urge upon growers the necessity of good handling and grading. If this is given proper attention the sales will be greatly benefited as buyers are going to be more particular as to grades than heretofore.

Mr. A. M. Perry, of Richmond, Va., one of the best auctioneers and judges of tobacco in the country, will in all probability be here to make the sales.

The outlook for a successful opening and a continued good market is bright, as it is a recognized fact that there is as much good tobacco raised in this section as anywhere in Kentucky, and this fact will attract buyers. There are many reasons why Carlisle should be one of the best market points in the state, and all that is needed is for every body to help a little and do as little knocking as possible.

Tobacco will be received at the new house on Friday, Saturday and Monday, Dec. 29th, 30th and Jan. 1st

J. Sam Kennedy has been selected as weigh-master and Jas. Harrison as assistant floor manager.

For boxes of the finest fancy candies you should go to Metcalfe & Berry's under the Mercury office.

Exchanged Places

Ed. E. E. Violett, while holding a meeting at Salem, Oregon, asked the editor of the Salem Statesman to exchange "pulpits" for one night, so the editor preached at night while the preacher got out the paper, Both made a hit. We shall later give some of Bro. Violett's good editorials and comments.

If you are looking for Glassware call and see us. Prices to please you.

WILLS BROS.

County School News

Dec. 5th and 6th we visited the E. K. S. N. School in company with Miss Sallie Mitchell, of Pleasant Valley, who went to enter school to remain until next June. We were entertained royally by Dr. Crabbe and Mrs. R. N. Boark. We were given the guest room at Sullivan Hall and enjoyed our visit very much. We went with Miss Sallie to get her schedule made out, and visited a number of the class rooms. We were very much impressed with all of the work, but the recitation which struck us more forcibly than any was the management class whose instructor is Prof. E. C. McDougle. Each and every teacher who enters the Normal School now must take up the management work. Here the State course of study is explained and studied. Discipline and every phase of school management is taught in this class which recites every day. We could but wish, as we heard the excellent instruction, and heard the discussions by the teachers in the class, that each teacher in Nicholas county could hear this class recite, and we feel sure that they would understand why it is necessary for those who expect to teach to attend such a school as this. What could, or how could a young teacher, or older one for that matter, know about the State course of study, the grading successfully of the rural school and the proper discipline unless they be given some instruction along these lines. Dr. Crabbe, President of E.S.N., being the splendid school man that he is, realized that the great need of teachers is efficiency for their work, organized and added to the already splendid course, this management class. Misses Lucy Irvin and Sallie Robinson, Forest Ward and Archie Humphries entered this class making splendid credits the last term. Martin McCann is also doing good work. Every teacher who enters the Normal this year will have to take this management course. We feel sure that we shall have better managed schools next year than we had this, although our schools are well graded now with a few exceptions. Of course there are some teachers who attend Normal Schools who do not make successful teachers, but there are some physicians who come away from medical college who are not successful in their professions, some ministers who are failures, some attorneys, and others who fail to make a success. Then should we condemn the great work of the Normal School because some fail to make a success of teaching?

Our teachers who attended the Normal last year are not compelled to go this year, but we are glad to say that a large number of those who have been for several terms are going back this year to take up music, management, the graded course of study, agriculture, handwork and many other subjects the real teacher should know how to teach. We trust that the trustees will be very careful in their selection of teachers this year. Insist on having those who understand the system of grading and school management, and your school will be a success nine times out of ten. The patrons should do as the Jordon people did last year. Say "We will not have any but a Normal teacher."

The tuition at the Normal School does not cost the teacher who has an appointment anything, and we have appointments for all of our teachers who care to go, and the board is $2.00 per week, with 75c. additional for room, heat and lights, making $2.75 per week. We do not see how they can care for so many at such a reasonable rate, and they give good wholesome fare, too

A large number of our schools will give entertainments Friday afternoon and night. Among them are Parks, Taylors Creek, Headquarters, Miranda, Mt. Vernon, B e ll, Banta, Ellisville, Goose Creek, Barterville and perhaps others. Barterville will have a box supper at the same time for the benefit of their school library.

We were delighted to hear of the splendid attendance at some of the schools last week as rainy as it was. Mt. Vernon, with only 28 enrolled, had 24 all of last week; Miranda had a large attendance. Miss Woodall told us that one rainy afternoon that there were 8 buggies waiting for the children when school was closed. This is what we call interest in school attendance. Ellisville, Pleasant Valley, Maple Grove, Moorefield and others had good attendance.

One month of the teachers' salary came in last Saturday. We received a letter from Mr. Vinson, chief clerk of Department of Education today, saying that the 4th month would probably be sent out by the 25th.

The County Board of Education met in the superintendent's office Monday to settle up the business for the year. A large number of bills were examined and approved. The work of the schools of the county was discussed to some extent and some plans for next year were made.

We have received cards from quite a number of our corn growing boys. A number of the boys have raised at the rate of 60 to 80 bushels to the acre. We would like to hear from all of the boys by the 26th of December as we want to get a Frankfort trip day to complete arrangements for the Boys Corn Fair the third Saturday in January and to take the names of those who will receive diplomas from the Department of Agriculture.

Wednesday, Jan. 3rd, at 6:30, p. m., the County Superintendent, Wm. Conley, Geo. E. Carter, E. T. Flora and others will assist the good people of Goose Creek school to reorganize their School Improvement League at that place. A program will be rendered by the children. Every body invited. Don't forget the date, Wednesday night, Jan. 3rd at Goose Creek school house.

406 Want It

A dispatch from Frankfort, Dec. 15th, says:

"Just how many men want to be custodian of the Capitol under the new administration is not definitely known, but Henry Bosworth, State Auditor, says that he has had 406 letters from applicants, and he opines that some of those who would like the place have not yet written to him. Mr. Bosworth says that the appointment rests largely in the hands of the Governor. Col. Thomas Smith, the Governor's private secretary, says that each of the 406, taking a tip given by Mr. Bosworth, promptly wrote to Gov. McCreary about the appointment."

Rebellion.—[Lexington Herald of Monday

The Cincinnati Times Star of Saturday last quite an article on the subject of the missing missionaries but nothing new or definite. The paper gives it as its opinion that the chances for being alive were against the missing ones, as the road they would have to travel was five hundred miles long and over rough mountains where only the most experienced men could walk, and that through a country peopled by most ing of the sewing machine which was given away by J. W. Scott, with Mrs. John Lannam held the lucky number that drew the machine and others drew the mirrors. HARDY AND OGDEN BELIEVED SAFE

Information Received Indicates Conditions Are Not Nearly So Bad As Reported

Rev. J. W. Hardy, of this city has received information in regard to the situation in China, which gives him considerable hope that his son, Dr. W. M. Hardy, who is a medical missionary at Kaifeng, Western China, is safe. Rev. Hardy has not heard from his son in a month, but expressed confidence that he had begun to entertain grave fears for his safety.

Secretary F. M. Rains, of the Foreign Missionary Board, in conversation with Rev. S. J. Shelton, who was for several years a medical missionary to China, says that the missionaries are safe, and that the people in that section of the country would not harm them. He says that the revolution is not anti-foreign in its nature. An effort is being made to communicate with Mr. E. T. Williams, of the United Consular service, who is stationed at Peking, but the attempts have been fruitless thus far. Mr. Shelton says that he believes that the lack of news is due to the deliberation of the mail service by the re-

bellion.—[Lexington Herald of Monday

The Cincinnati Times Star of Saturday last quite an article on the subject of the missing missionaries but nothing new or definite. The paper gives it as its opinion that the chances for being alive were against the missing ones, as the road they would have to travel was five hundred miles long and over rough mountains where only the most experienced men could walk, and that through a country peopled by most savage heathens. However as no news of massacres having taken place has reached this country it is hoped our brave young Christians may yet be returned to us. They are in desperate straights beyond doubt.

News Summary

The Carlisle Correspondent of the Lexington Herald thus summed up the Nicholas Co. news in Monday's paper:

"The unfavorable weather of the past week has been such that the farmers have been unable to do much farm work.

The delivery of turkeys for the Christmas market is the principle work, and several thousand head have been received in the local market during the past few days.

The birds are in much better condition now than they were for the Thanksgiving market, and are bringing better prices. Twelve cents per pound seems to be the ruling price for dressed birds. The last shipment from the local market will be made this week.

The yield of eggs continues high while chickens remain remarkably low for this season of the year.

The majority of farmers are through log killing.

There seems to be much activity on the part of tenants who are preparing to rent land for the coming year.

The price of real estate, especially farming property continues very high and but few farms seem to be changing hands, notwithstanding the good prices that are being offered.

Willie Bell of East Union, sold his farm of 55 acres to James Blantz and W. J. Lane for $76 per acre. This price is an increase of about $20 over what Mr. Bell paid for the farm a little over a year ago.

Mr. Bert Taylor of Ashville, N. C., sold and conveyed his farm of about 100 acres to Mr. Walter Dorsey for $2,600. The farm is about two miles from Carlisle on the Gallis Hill dirt road.

L. B. Barton purchased James Thomas Clark's and John Kerns' 40 acres of the John B. Seanion farm for $43.50 per acre.

The tobacco crop of stock are in good condition, but farmers are much inclined to try to clean out all feeding stock and keep only such stock as are necessary for the farm. The scarcity of feed for the stock is assigned as the reason.

General reports from the county show that the tobacco crop is much better than was expected, and the quality is much superior to that of last year's tobacco men thought it would be.

H. N. Rankin bought eight hundred turkeys for the Thanksgiving and Christmas trade and shipped them to Pennsylvania Saturday night.

The Campbellsville, (Ky.) News-Journal has a very complimentary account of the work of our former countryman, Bruce Kincart, in rebuilding of the Electric Light plant at that place, which was burned on Nov. 10th. Mr. Kincart has developed into one of the most successful electricians of the state, and his work at Campbellsville has been duly appreciated.

Ed. Mathias and Wm. Laughlin have rented the Kimbrough House and will open it as a hotel on the 1st proximo. They will conduct a restaurant in the old office room and will be prepared to serve meals at all hours and accommodate lodgers. The rooms are being refitted and put in first-class order for the accommodation of their patrons. We bespeak for those young gentlemen a liberal share of the public patronage.

Eleventh Wedding Anniversary

One of the most pleasant social events of the season was the 15th wedding anniversary of W. D. Sparks and wife at their beautiful country home last Saturday evening where a number of neighbors and friends were invited. The house was lighted beautifully and the dining room was decorated with holly and Christmas bells. The tables and side board were decorated vases of carnations, La France roses and ferns. Covers were laid for 30 guests but owing to the inclement weather all did not get to attend. At eight o'clock a splendid supper was served in courses. This being the crystal anniversary they were the recipients of quite a number of pieces of cut glass. The evening was pleasantly spent with music and games. It was a late hour when the guests departed wishing the happy couple many years of connubial bliss. Those present were: Ed. Secrest and wife, Tom Hankle and wife, Tilford Hankle and wife, Tom Dillon and wife, J. W. Harrison and wife, Miss Lida E. Gardner, Jno. Shannon and wife, S. B. Oldham, Oscar Wamps and wife, W. Stafford and Clay Herd.
