The long is crossed—long last the cross is lost about as thankless a thing as the English pronunciation. If the cost was left off.

During the ceremonies of the crowning of King George I'mperor in person in the coronation robes, he ended a brief speech in the order of his pronunciation.

If you could differences, when the Lexington Herald can find a man large enough to talk about. The Herald is a good paper in many respects, but it is not large enough to talk about.

The Louisville World says that the old saying "that it never rains but what it rains hard" did not prove true that year. The State crop report showed a greater loss than it from being the World interested in the proposition if a rubber tax passed.

When one considers the rotten to earth, dust and ashes of the days the Lord created man, and the many glorious promises in reserve for the humble and righteous of those days, one can but feel sorry for the unfortunate creatures who have to live in these days and in this world of sin.

We don't want to interfere with anybody else's fun, but we do think that the Fourth of July is a little too much for the nerves of horses, dogs, babies and old people. It seems to us that a few days of quiet would be appreciated by all of the above mentioned classes.

The farmers and millers of Todd county have organized a Mutual Insurance Association at Guthrie, and have issued policies to the amount of $1,000,000. Each member pays a membership fee of $1 and an assessment of 1 per cent. Losses are paid by assessment.

A Clean Christian Gentlemen

Every democrat who is for McCreary for governor and wants to see the democratic ticket win next November, ought to vote for E. J. McDermott for lieutenant governor. He'll be worth many thousand votes and is of the class of democrats who should be named for the highest positions. Standard is loyal Journal.

While the Interior Journal is spurring the friends of Mr. McCreary to rally to the standard of E. J. McDermott for purely monetary reasons, we wish to say a few words of Mr. McDermott as from purely personal motives. Mr. McDermott is a Catholic, and the L. J. wishes to use him to pull the chestnuts out of the fire that Ben Johnson's treatment caused to be spilled in the hot ashes, but we will not trust honor readers that if they wish to add do vote for Mr. McDermott they will vote for one of the ablest lawyers, most eloquent orators, high class Christian gentleman there is in Kentucky. His private and public life is as clean as that of any man in the old Commonwealth, and if he should be nominated and elected Lt. Governor, and by an chance of fate become Governor, the State would have the honor of having a competent and an honest man in the chief Executive office. Now if you want to vote for Mr. McDermott do so but not because he will help any of the other candidates for Governor. He is individually worthy of the support of any man of any religious belief.

For State Superintendent of Schools vote for Dr. J. H. Lathrop, the friend of the country school. He stood by them in the last session of the Legislature.

The Loose Leaf Tobacco Warehouse Movement

The meeting of our business men on Thursday night last was fairly well attended but there were several parties who should feel interested that were not present.

No movement has been under taken by our people in the town in a long time that we have loved more to see a success than the one started last week for the establishment of a loose leaf tobacco warehouse. It means as much importance to the city, as to the county as well, as is the movement to establish a water in use in Carlisle to handle and sell the tobacco of this county and the convenient territory of adjoining counties.

To the city it means almost countless life or death. The taking away of scores from there who labor in the handling of the crop in the warehouse is scarcely greater than the taking away from the merchants the trade that necessarily follows the payment of money to the sellers of the tobacco and then also to the farmers that wish to receive the deposits. It means that more than like a million dollars will come to here to lay, to be used, and to be deposited in Banks. It means that our natural custom will have to be shortened to many counties to transact their business, and in this it means a great deal to our merchants.

This may seem to some to be a too extensive picture, but we think not.

To the owners and sellers of tobacco it means equally as much, though in another way. A good and handy market is of as much importance as a good crop. A market that can be gotten to at the least cost is to be desired. This is said to be gainsaved, and the loose leaf tobacco raisers who were compelled to find a market last season in foreign cities can testify as to the excessive costs of hauling, stabling, boarding and other unavoidable expenses that take upon one who is away from home with teams and men. This can be avoided if a home market is established, and it certainly can be if a spirit of liberality prevails instead of a spirit of selfishness.

That Carlisle is the logical point for the establishment of a tobacco warehouse seems to be generally conceded. The territory that will recently and on account of availability, contribute to the business is not a matter of doubt. The great shipments of the years past establish this fact beyond controversy.

The late destructive fire has created an opportunity for securing a suitable location though the destruction of houses is not by any means restricted, and the time is ripe for the movement, while the necessary work is not much to us all—both city and country people.

The Committee appointed at the meeting have gone to work in earnest and we hope for satisfactory results. Let's all boost and none knock!

Hon. L. C. Littrell is the son of and old Confederate soldier. He introduced and fought through both Houses the Confederate Pension Bill in the last Legislature, fought school for years in Olsen and was her County Superintendent. There is no red tape about him. He stood for the County Superintendents and the rural schools in the last House. Several members of the Ladies' Aid Society of the Baptist Church of Carlisle Saturday. Those present were: Mesdames Frankie Mc-gan, B. F. Swindler, Russ Buckley, Anna Brady and Miss Sue Tuttle. Mrs. Robt. Sherwood and children and Mrs. J. E. Eliza Courtney and Miss Stella Stewart, of this place, were married recently in Paris, by Squire L. J. Fretwell. Mrs. Mary Mcgill, wife of Tilton, spent last week at Park Paris. Old Settler's Meeting

Our people should not forget the old settlers meeting in this city, next Saturday, June 24th, and come in force and make the day a pleasant one for the old folks. The day used to be a great one before people took to automobiling and such. However we trust there is enough love and milk of human kindness left to move our citizens to works of kindness to the older ones.

Not So Bad

Lyst week we wrote a belated item about the death of Mrs. Ben Allen, and while it was not altogether bad it might have been some of the friends of several hundred miles in the West to think we were on the verge of a famine in old Kentucky. It is different this week. The good Lord has sent us a genuine gully washer and cloud-burster over here, and crops and spirits have been revived. Last Saturday night was the finish of the old and Sunday lots of folks put their future happiness in danger by putting out tobacco while the rest of us sung psalms. Monday found everybody busy and busy is the tobacco patches, while those who are too wise to raise tobacco jawed and loafed from early light to evening's darkness as if they thought that tomorrow was the last day. harvest greeting the Kentucky farmer has been a baby feast was held and he finds never so much better.

LOOSE LEAF WAREHOUSE.

A meeting was held in Holmes & Ross' office last Friday evening for the purpose of discussing the matter of a Loose Leaf Tobacco Warehouse in this city. Quite a number of our citizens were present and also very quite a number from the country. The subject was discussed at length and it was the unanimous opinion that things must be pushed to secure for Carlisle one of the best warehouses as well as the best point for the sale of tobacco in the county. It was decided to appoint a committee to solicit stock and a committee was appointed to look after raising the necessary money.

Every merchant in this city should put his or her shoulder to the wheel and see that this work does not lag. Why should we haul our tobacco to Lexington, Maysville or Mt. Sterling or any where else when Carlisle is the most central point?
