ANNOUNCEMENTS

For Representative

We are authorized to announce FOSTER V. COX as a candidate for Representative from the counties of Nicholas and Robertson, subject to the action of the Democratic party.

TO THE DEMOCRATIC VOTERS.

On Saturday, May 27th—day after tomorrow—the Democrats of Nicholas and Robertson are called to go to their respective voting places and select a candidate for Representative in the General Assembly.

Under the party laws and the call of the Democratic Committee, the choice falls between F. V. Cox and G. R. Keller, and while some may regard it a sort of a "Hopson's Choice," the fact remains all the same.

The undersigned being a candidate has pursued what many consider a rather unusual course in electioneering.

I have failed to follow the well-established custom of making a house to house, or personal appeal canvass, because of my peculiar opinions as to the propriety of such a course. I look upon the office of Representative as one of the most important to be filled by the people—and one over which the people should be most sacred. Its powers extend to the life, liberty and property of the whole people. It is a place of trust and not of profit, and for one to make personal appeals for election to it has appeared to me as not the proper thing to do, in fact I have rather regarded it as very improper. Doubtless many will be influenced to vote against me on account of my failure to call upon them and solicit their votes, but being honestly convinced that the signs of the times point to a radical reform in elections and electioneering, I have decided to give the INTELLIGENT PLAN a trial.

I have neither money or liquor to offer or give for votes, and many are of the opinion that this statement will defeat me, but we shall see.

If the good people of Nicholas and Robertson are willing to have their most sacred trust sold to the highest bidder they will close their ears and stay away from the polls, while those who do not appreciate the wonderful privilege will exchange it for a few paltry dollars that will cankerin their pockets, or a little liquor that will leave a dark brown taste in their mouths and a blot upon their consciences.

No man likes to be defeated—and I am sure I am not an exception to the general rule, but if the Democrats of the district do not think I am qualified for the place they should not vote for me, regardless of what I may think. If the Democrats of the district think Judge Cox is the best equipped by age and experience, or that his opinions upon public matters are more in accord with their desires and wishes, they should vote for him.

It is a matter not to be treated lightly or one to be decided on account of some prejudice or some story that may be told at the last hour. A man who tells you something on another candidate when it is too late for you to investigate the truth, takes you for a fool, and if you are not, you should make up your mind right then and there that he is a knave and unworthy of your consideration.

What I wished to say and doubtless should have said with less words than I have written, is to urge you to go vote as your best judgement dictates, but for Heaven's sake don't let any body hear you say you "have no interest" in who represents you in the Legislature.

Yours with respect,

G. R. KELLER.

COUNTY SCHOOL NEWS

The Nicholas County Teachers' Institute will not be held until the last week in August. This will give teachers an opportunity to take their vacation and be ready to attend the Institute. Remember that the Institute this year will be held after the last examination for teachers, therefore, all teachers expecting to teach in any school in Nicholas county will have to attend the Institute or they will not be at other opportunity of securing a certificate should you be needed for non appearance at Institute which the law requires. Institute conductor will be with you. We had a splendid attendance last year and we are expecting the same this year. We are planning for a great Institute. Mrs. Flora Wilson Bass will be the lecturer assisted by Miss Alice Ramsey, who will give some special primary work. Mrs. Stewart is one of the foremost educators of our State. She was sent last year to that great educational meeting at New York as a delegate and visited the New York schools and will come to us filled with valuable, helpful information. Miss Ramsey is a graduate of the Normal and is a Primary Institute. Don't forget the date. Aug. 28th.

The Nicholas County Board of Education held its regular monthly meeting in the superintendents office last Wednesday. The bids were opened for the new school houses and the contracts awarded to the lowest bidders. The Walnut Grove school house between Headquarters and Millersburg and the Moorefield colored school were awarded to Henry I. Pumphrey for $625 each. The colored people having secured a beautiful $500 lot and desiring a house to cost that amount. The contract for the new school building to be erected near Buzzard Roost was awarded to Ollie Hamilton for $1078. A large delegation of the patronsmen existence of Buzzard Roost viciously and before the Board and in addition to the subscription of $125, which had already been raised to add to what the County Board could allow for this schoolhouse, a number of the men agreed to furnish 12 wagons and teams and convey all of the material for the building to the site of same. This will be a saving of not less than $40 to the County Board, and the patronsmen of the district of Flora had actually begun work on the ground for the school, and Amos W. Stanger, Chairman of District 1, was appointed by the board to secure the material and the County Surveyor and Janitor will be present next Saturday. Saturday afternoon all patrons interested were on the ground to do the surveying, but Mr. Stamper who is a school man through and through urged the people to go there to make the school lot two acres instead of one and those wise awake, energetic Buzzard Roost men, in addition to what they had already done and will do, had raised $100 more and pushed the subscription list to $225. Mr. Vice Bal already given and they will have the largest school lot in the county for a one room building. If all of the parents in the county would take the interest in securing good schools that these people have, Nicholas would not only be the banner county, but it would remain the banner county. Mr. Ollie Campbell donated a large number of locust posts for the fence. Over $250 have been given for this school.

A delegation of patrons from the Jordan school also appeared before the Board and asked that school be moved to the mouth of Jones' branch of Hinkston between the Goodall and the Locust Rock school houses, and as the school house is in the Moorefield Consolidated district the Board had been given to understand that if they would raise $150 to help pay the teacher that they would supplement the salary for this year. There were only eight or ten of them here but they went out in the hall and were only out a short time until they had raised $150, and they asked to be allowed until next week to raise the rest, which the Board granted, and we are sure they will succeed. Mr. Jones and Mr. Hinton are to be congratulated on their children. It was very interesting to hear these people talk and the Board people that their districts were broken up by consolidation, but the people in these two districts living together will soon forget it and the children will become the best friends. But the County Board would undertake to haul all children to a high school from distance from schools in Nicholas county. This would have to have three drivers as much money as the limited tax will allow. Consolidation is the only thing we see and we hope in the near future that it was out of the question to furnish conveyance when there was a sufficient number, new building, county High School tuition to pay and so much to do that the law required us to do, and there was not any law for the public conveyance and the patronage of the entire county, so our County Board has said it would grant every effort to improve the schoolhouses, to replace the condemned houses with new ones, and we have a County Board of Education that is willing to do its best and not what is for the interests of the entire school system of the county. Our aim is to do the very best we can for the entire county with the amount of money we have to do with.

The report of the County Diploma Board will not be given out next week on account of want of space, also the building contracts awarded to various houses. Teachers examination will also be reported next week.

By order of the Nicholas County Board of Education the school house at Walnut Grove will be sold Saturday, June 3rd, 1911, at 2 o'clock p. m. to the highest bidder. Sale will be at the school house.

THOS. WATSON SAUNDERS,
LIDA E. GARDNER, Supt.

SEALED BIDS.

Chairman County Board.

Locust Grove

We have been having some splendid farming weather. Corn is coming up nicely; oats and wheat looking fine; fruit crop good. A big meeting will be held here shortly. Some of our farmers are talking of buying autos, while others are talking of going into the poultry business more extensively. Good horses are scarce and high, and the demand is great. If you want to raise good horses always, but saddlers are pretty scarce now.

The Blake boys bought them a new sheep shearing machine and did a big business with it. Joe Atkinson has about completed his new home. Mr. Kendall's Western theater, I don't know that it can. Possibly it is not so much to be seen as to be heard. Anyway the system of taxation under which it is operated. All the county's assessments are getting decidedly weary of this continual "revision" work. They can't see that it results in anything. The Myrtle if some county's assessments were reduced so correctly they would be better pleased with the situation. Perhaps it would look more like the board had not a pre-determined purpose for which it was created.

Mr. Kendall has purchased of Commissioner of Agriculture Frankfort to present agitation. Time in deed is a costly piece of business for the state. Besides it is about time the expenses of these pandering delegations and an office so otherwise the protests are not heard. All in a little State Board of Equalization is an expensive luxury. If it is to be a mere squeezing machine then it may be called that, but we also talk it out loud as to first principles, a board having the power to raise or lower the assessments of property as they when Kentucky shall have a fair, equal and more equitable scheme—taxation."

As to the State Board of Equalization.

The Louisville Courier-Journal discussing the peculiar doings of the State Board of Equalization had this to say:

"It may be that the State Board of Equalization, like the printer in the Western theater, is doing the best it can. Possibly it is not so much to be seen as to be heard. Anyway the system of taxation under which it is operated. All the county's assessments are getting decidedly weary of this continual "revision" work. They can't see that it results in anything. The Myrtle if some county's assessments were reduced so correctly they would be better pleased with the situation.
