Are the above questions unreasonable? A man came to my office one day last week with his certificate and said that in the other two distributions he had been paid $40, and wanted to know if he could not get some more, as he had no flour at home for his family to eat, and had no feed for his team to enable him to do his "spring breaking".

I told him that we now had $110,000 in the banks of Bracken county belonging to the farmers, and probably about that much more in the banks of Lexington, but I was not advised as to when he would get his, as the Executive Committee at Lexington were the only people who knew when the "distribution" would be made and so far they have not seen fit to tell any one when they were going to make it.

Another man said to me that he was paying 6 per cent on borrowed money for the last two years, and that he was willing to get his money out of the pool to pay it off, and he wanted to know when there would be "something doing." I again referred him to the Executive Committee, but he only looked discouraged and went away.

Still another man asked me whether or not the money which the Society owned him was drawing any interest, and if it was, would I get it? I also referred him to the Executive committee at Lexington as being the only place he would be likely to get the information he sought, and when I referred him to the committee he asked me who the committee were, and where they lived. I passed him up as a hopeless case, pathetic in his lamb like innocence and honesty.

The farmers were bull-dozed and deluded by the American Tobacco company, and they stood it for nearly a quarter of a century, but when they did raise a howl, it was heard all 'round the world, and if their money which is tied up in the Burley Tobacco Society, continues a little while longer to move like, "molasses in January," they will raise another howl, which in comparison to the one they raised heretofore, will be like that of the roaring lion to the mewing kitten. Tell them where their money is, and give it to them. It belongs to them, and no man, or set of men, have any right to withhold it from them. [W. A. B. in Bracken Chronicle.

An Old Paper

Alex. Henderson the other day gave us a copy of the Democrat of January 6, 1869, over 43 years ago. The paper was then owned by Andrew J. Cox with Charlton Mountjoy as publisher, the latter we soon after buying the paper of Mr. Cox.

A perusal of the columns of this paper brings forcibly to mind changes since that time. In the official directors we find that R. H. Stanton was County Judge; Cassius M. Halbert Commonwealth's Attorney, H. E. Dobyns Circuit Clerk, James T. Smith Sheriff, William Pioneer County Attorney, Joseph Throop County Clerk, Matthew Thompson Assessor, Dillon Oldham County Attorney, Anthony Turner Coroner. All are dead save Isaiah Dillon, who still lives at a good old age on his farm on Locust creek. In the town directory we find Charlton H. Ashton was Police Judge, William B. Allen Marshal, H. F. Ashton Assessor, and David Wilson Treasurer, with the following Town Trustees: F. W. Allen, M. W. Lyons, J. H. Crain, N. S. Anderson and H. B. Franklin. W. H. Allen now lives at Paris, and H. C. Ashton in Cincinnati. The rest are dead. W. A. Morrison and Irvine F. Bright were Magistrates for Flemingsburg precinct, and Thomas N. Cox Constable, the latter surviving. Among the professional cards we find that of J. W. Dudley, dentist, who is still in the same business. Among those representing the advertising columns at that time there are very few left. Among them we find A. T. McDonald, H. C. Ashton, Thomas S. Anderson, Jos. O'Sullivan, Charles Sadler, B. M. Vansant, David Hechinger then conducting a tobacco factory, Blum, Hechinger & Co. There now is not a double column advertisement in the whole paper, and a great many Cincinnati and Maysville firms are represented. The annual Farmer's Address appears in this issue, a poem by M. M. Pogue, occupying almost four columns of the first page. In it also appeared Andrew Johnson's declaration of amnesty to the people of the Confederate States. Which was one of the things which led to the attempt to impeach him and remove him from the Presidency, which failed by a narrow margin. It is a very interesting relic of by-gone days.

At the time this paper was printed they were just beginning the agitation of the question of building the railroad from Maysville to Paris, work on which began that summer, we believe. One of the peculiarities of country journalism at that time is the entire absence of personal items, as they are called.—[Flemingsburg Times-Dem. April 12, 1912.

War Due in 1930

Professor Brander Matthews has predicted for the Chair of American literature of Columbia University that another war is due for the United States about 1930.

"I derive my conclusions," he said, from the repetition of wars as they have occurred in the past century in the last century and a half. From the Revolution to the second war with England, about thirty years had elapsed, and a similar period divided that war from the outbreak of the Civil War. Thirty years after the victory of the North the people became restless and the war with Spain took place, and the probabilities of another war twenty years hence are great.

"I do not know with whom the trouble may arise, but the United States in all its strength is apt to be wrong. With the increase of wealth and population our nation is likely to take the part of the bully, and, to display its power, take part in unnecessary slaughter."

The Court of Appeals holds, in the case of the Commonwealth against A. A. Abbott, from Grant county, that the law against the sale, barter or loan of intoxicating liquors, does not forbid the giving away of liquors. The case was an unusual one. Abbott, a physician, gave to one Beard whisky for the use of the latter's sick child. The court says the statute was not intended to punish a neighborly kindness of this kind.
