MAKING YOUR OWN BROODER  
Directions and Illustrations Given  
of Successors of the  
Little Chicks

In describing a brooder that will  
keep the chicks warm and  
dry, the author says that it  
is a good idea to use a wire  
mesh for the sides of the  
brooder. This will allow the  
chicks to see each other and  
will also allow them to get  
fresh air. The author also  
mentions that it is important  
to keep the brooder clean and  
dry at all times.
