Mr. Keller Critically Ill.

As we go to press, G. B. Keller, Editor of the CARLISLE MERCURY lingers in a critical condition. He was taken suddenly ill Tuesday morning, with a congestive chill and we fear the end is not far off. He has suffered with stomach trouble for the past few years.

Straw Vote

Young Mr. Jouett representing the Cincinnati Enquirer and other papers, which are having a test vote on the Presidential election taken, was here Monday taking the sense of our people. He says that in the cities the great bulk of the laboring people are voting for Roosevelt, and that Taft is running a bad third in Kentucky.

To Good to be True

The Lexington Herald of Sunday contained the following which we republish for the benefit of those who do not think we have any friends in this world.

"Green R. Keller, who jumped all over us because we hadn't published something which we had published, and who then apologized like the thoroughbred gentleman he is for what he said, is booming things for Nicholas county for that big Democratic meeting of ours September 19. Green Keller is one of the most useful men in Nicholas county. He is one of the leaders of his people in every movement for the public good and can generally be found on the right side of any question of public interest. He has begun to arouse interest in educational affairs in his county and his article is sought after and heeded by those in charge of its schools. The past week he has been speaking on education in his county along with others. He served his county and his State well in the last legislature and doubtless will do so for another term if he wants to go back. He has steadily refused to enter the race for Congress in his district because he has believed that the man who represented the district from the Republicans, Hon. W. J. Fields, should be rewarded with a renomination after the district had been made reliably Democratic by the last Legislature in the redistricting of the State. After Fields has served his second term it might be well to keep an eye on Green Keller. The tip is given the politicians of this district without any charge."

Prosperity Ahead for Carlisle

On all sides there are evidences of great prosperity in this section. Several new dwellings are being built and over $100,000 is being spent on the additional warehouses which are being built here. All kinds of laborers are in demand and are receiving good prices for their work.

The recent reports of local financial institutions show that the financial condition of the county is good, notwithstanding a slight stringency exists at the present time, this is attributed to the need of money for handling crops.

There seems to be a strong demand for farming land and several farms have changed hands within the past few weeks. The demand for city property is much stronger than usual, which is attributed to the building up of a large tobacco market here.

We call attention this week to our full line of "Ziegler" Bros. Shoes for ladies. They are the right style and fit, and wear longer than any shoe on the market. Also a complete line of misses and children's footwear. Call and see them.

Proclamation

At a meeting of the Board of Health at the office of Dr. Kash, Sept. 18, 1912, reliable information was introduced that diptheria existed in an epidemic form in the northwest part of this county, and to protect the public health, Judge McNew was requested to issue warrants for public health and every physician treating diptheria and not reporting the same to the Health Officer and how that they are prosecuted under the law, and it was further ordered that each residence wherein diptheria exists or may hereafter exist during this epidemic is hereby declared under a quarantine, and that proper cards and flags will be furnished each physician by this Board, and it was further ordered that all public schools wherein diptheria has made its appearance shall be closed and that all public assemblages in the affected districts, political, social or religious, are hereby strictly forbidden until further orders from this Board. And it was further ordered that a proclamation be published in the county papers giving notice and warning to the people of the existence of diptheria and location and of the action of this Board.

City School News.

At the end of the first two weeks of school we feel the public are in the right mood to hear what we are doing, going to do, etc.

The school spirit throughout is better than any previous year of our work here.

The enrollment the first day was 400 more than last year. At the present time our total is about 365.

The fifth and sixth grades here have been taught for some years by Mrs. Elizabeth Rice, 1910, over these two grades have enrolled 63 pupils. After much thought by all and many good suggestions by the Board, to relieve this congestion, we have at last decided upon the following plan. We are going to unite or rather seat the fifth and 7th grades in the room now occupied by Mrs. Rice, under the supervision of Mrs. Annie Buchanan, the present teacher of the 7th grade. She will be assisted by Miss Virginia Venardell, teacher of the 8th grade. Miss Rice will have grade 5 in the room now occupied by Mrs. Durham. This particular part of the change is mentioned so that the parents and people in general may know the who's.

By the present management and division we feel quite sure all will be for the best. Under the most adverse conditions as to the weather we have made a most gratifying start.

Each teacher has begun her work well. "Well begun is half done."

The high school has an enrollment of 72, with possibly two or three more to enroll. This is one of the best High School enrollments we have ever had, and the quality seems in proportion to the quantity.

With the earnest work of the teachers we appeal to the parents for their hearty co-operation in the effort to secure the best development of their children.

We believe if all parents could show their interest in the child and school by occasional visits to the school it would prove a great source of inspiration and help to both pupil and teacher.

Let us all work together to make this year's work the best school year we have had. E. Dean Squires.

STRUCK BY LIGHTNING

During the heavy thunder storm last Saturday week ago the residence of Mrs. T. J. Flora at the corner of Fifteenth and Main Street, Paris, was struck by lightning and Mrs. Flora was rendered unconscious as a result of the shock. The bolt struck a chimney knocking part of it to the ground, and going down the shaft knocked a floor off. From the first floor the lightning blew out the front of a fire place and from there went into the bath room flashing close to Mrs. Flora's face, rendering her practically unconscious for a time. The same bolt struck the chain that holds the bath tub drain plug. No further damage was done, indicating that the bolt struck itself. Mrs. Flora was not stunned as if the bolt struck her in the face and exploded. Aside from the shock Mrs. Flora was unhurt. Damage to the building is small.

County School News

A number of our trustees have reported to us their schools are closed on account of diptheria, and we find that some schools have been closed and the County Board was not notified of their closing. We are very sorry indeed that this dread disease is in our county, and we certainly do not wish any child in the county to run any risk of taking it. We do not see any use in closing schools unless the same precaution is used by the Board of Health in the county that is used in the city with epidemics to occur. A quarantine should be placed in each district where the schools are closed; then adjoining schools would not have to be closed as they now are; and certainly homes where it exists should be quarantined and the flag of warning put up.

We wish to advise trustee in the county to get sulphur and fumigate the school house next Friday afternoon after the children leave school. And we ask that this disease be put under control by taking the proper precaution to check its spread. Put on a quarantine and stop public gatherings. And then we wish to ask parents and teachers to see that children do not eat nuts and apples on the school ground. We heard a very prominent physician say in an address at an educational association that the most diptheria was prevalent in the early fall in the country than ever to children eating green nuts.

Last Monday afternoon we went to Richmond and Miss Marguerite Martin who entered Eastern Kentucky State Normal School for the year. Miss Minnie Jolly, of Licking, also entered for the year. Miss Mallie Mitchell was at home from her school Sunday from her school in connection had a very large enrollment. Many children were turned away because of lack of room.

Truly this school is growing and Dr. Crabbe is a good man in the right place.

Wednesday we spent in the office of Superintendent of the East Union or Brambleburg. They have two teachers now due to the interest of the good people out there who raised money to employ another teacher and provide another room. Both teachers, Miss Patrick and Miss Brambblett, are doing excellent work. Both had good order, and were graded visits. Flowers were in the rooms, pictures on the walls, and no scrap of paper on the floor or yard. These are encouraging things to see. The teachers make morning exercises an hour in length. Freshness is almost unknown in their school. Brambblett is teaching splendidly. We heard many of the classes recited and were delighted. It is a frequent thing for parents to visit this school. That night at 7:30 organized a Parent-Teacher Improvement League with the following officers, Miss Patrick, Pres; Mrs. H. H. Smith and Mrs. Setzler, Vice Presidents; Miss Olin Brambblett, Secy; Mrs. Trimble, Treas; Ed. Brambblett, Field Marshal. Many members were secured that night. Mrs. H. H. Keller and Wm. Conley made splendid addresses on Education and the League. A good sized crowd was present and their knowledge of the League. A good sized crowd was present and their knowledge of giving the use of their nice church for the occasion. Watch this League and see if it doesn't come to the front as one of the best in the county. Most of the members were men and women. They have a teacher, Mr. Fields, who never fails to do his duty.

Friday we visited the Parks School and taught by Miss Elizabeth Lawless. She has a nice school, no cross grading at all. A splendid system of marching to and from the classes. But we wish to say a word to the parents. Please see that your children get to school on time each morning. She had a number tardy, that part of the time on duty in her work at school and be tardy. The school begins at eight o'clock sharp and all pupils and children should be there for morning exercises. Miss Lawless tells us that she has ordered raffia and other material for hand work. She was having org day with the children—each pupil bringing three eggs and the money were going to sell and get curtains for the windows of the room. This is fine and we are glad that the mothers are encouraging both teacher and pupils in this work. Their trustee, Mr. Jas. Ockerman, is a live one on the board. He is painting the house and has the finest in the county. He is one of the trustees who looks after his school.

The Miranda School Improvement League will give an ice cream supper next Saturday night, Sept. 21st, this week, to get an organ for their school. This League has done splendid work and is still improving. Everybody invited. Miss Mollie Woodall is teacher.

The Henry School Improvement League will give a box supper at the school house Saturday night, Sept. 28th. They want to get material for hand work and to help the school. Miss Janie Clancy is the teacher. She had org day last week and their children responded nicely. This League has bought an organ and have music every morning. Go and help these leaguers who are working for the children.

Don't forget the Teacher' Association and League meeting at Maple Grove school Saturday, Sept. 28th. This is for Divisions C and D, but any and all teachers will be welcome. C and D teachers are required to attend. The program will be made out later. The program committee is composed of Prof. R. Dean Squires, Miss Alice Holland, Miss Bettie Durrum, Miss Etta Bell and your County Superintendent. The program will be published the week before the meeting. We are to have some good speakers that day and we are glad it meets at Maple Grove for their league has done so much to improve the school and property.

Last Saturday we met with the executive committee in Mayslick to arrange for the Ninth District Association at Ashland to be held in November.

The Myers School Improvement League will meet at the school house Thursday night to elect officers and to rally for new members. Your County Superintendent has been requested to be there and bring a speaker if possible, which we shall do. We trust there will be a large crowd. This League has done good work. Misses Parsons and Maffett are the teachers.

245 Acre Farm for Sale

At agent of the heirs of the late S. H. Fulwell I will offer for sale, privately, a farm situated on the East Union and Little Rock turnpike, one mile West of East Union.

This farm contains 245 acres and is one of the best Producing and Grazing Farms in the County.

About 100 acres under cultivation and the remainder in blue grass. Plenty of Extra Good Tobacco land. There is good house of 10 rooms, one tenant house, 3 new barns, 3 corn cribs, a fine orchard and an abundance of never failing water.

Will sell in one or more tracts to suit purchaser. Will take pleasure in showing anyone desiring to purchase a farm this splendid tract of land.

For further particulars call on or address the undersigned, or the Carlisle Real Estate Company, at Carlisle.

J. W. DALZELL, CARLISLE, KY.

Dr. T. B. Smith's Remedies

Mrs. James C. Richards says: "I was stricken down with congestion February 1865, called Dr. T. B. Smith Nov. 10th 1870, was so low and weak, could not raise my head without assistance, I used 34 gallons of Smith's Lung Tonic and Blood Purifier, and live to tell others that Dr. T. B. Smith's Lung Tonic saved my life. My home is at Ford, Ky., December 10th, 1911." Mrs. Richards is fleshier now than at any time in life.

Cincinnati Post dated December 8th says that it is estimated 6,500 persons died last year from the white plague. Why was it they did not use Smith's Lung Tonic? It is free from dope and fat. Dar is bad. Listen to the statement of Mrs. James C. Richards who says in the year 1865 she was stricken down with consumption and was confined to her bed six years. "I was so low I could not raise my head from my pillow, when on on the 10th day of November, 1870 I commenced taking Dr. Smith's Lung Tonic, for I considered it quart then three gallons, I raised my life and on December 8th, 1911, I am living at Ford, Clark county, Ky., willing to testify that the same is due to anyone desiring. These remedies can be had at Butler & Co's.
