**PROHIBITION RIGHT AND EXPEDIENT**

First - Prohibition is right. The state is right to become sober that which produces more than it has to produce disease or other evils which are the result of the sale of intoxicating liquors. The object of prohibition is protection. The prohibitory law is a property, prohibitory law is a right, and it is the duty of the state to protect its property. The right to protect its property is a right. The right to protect its property is a right. The right to protect its property is a right.
