MANY CHANGES TO BE NOTED IN NEW TARIFF MEASURE

Bill on Which Special Session of Congress Has Been Working.

REDUCTIONS IN MANY DUTIES

will call for a tax on net incomes of unmarried persons of $3,000 and upwards and on net incomes of married persons living together, where the wife or husband is dependent, of $4,000 and upwards.

Experts' estimates indicate a surplus of $16,000,000 over all expenditures at the end of the present fiscal year.

READY FOR THE INCOME TAX

Measure Will Yield Large Revenue, According to Those Who Have Drawn the Bill Up.

In figuring up his net income for the taxpayer, the American business man, after deducting $3,000 for himself, or $4,000, if married, will have the right to claim the following additional exemptions:

Necessary expense of carrying on business, not including personal, living or family expenses.

Interest paid out of indebtedness.

"Firms, corporations, and the like having the handling of interest, rents, salaries, or other portions of the income of any citizen are compelled to deduct the tax for the individual and pay it to the government. The individual then will receive a receipt showing he has paid his tax."

try shelves, etc. One clever housekeeper has found a new use for them. She pastes a small oblong label on the inside of every bureau or chiffonier drawer, at the right or left side, near the front. But first she writes on them the words "underwear," "stockings," "napkins," "handkerchiefs," "shirts," or whatever the articles...

dren she says it works excellently, as they learn to have definite places for all their little articles.
