Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Theford's Black-Draught," writes Mrs. Sylvia Woods, of Colton, Ky. "It is certainly no equal for a purgative, but after and stomachic, I find the Black-Draught to be my only friend in my little girl's life. No other has had the results, they were in line, but our poor girl of three had Black-Draught made from break out, and she had had it in my hands. I shall never be without it."

THEFORD'S BLACK-DRAUGHT

is in my home. "For constipation, indigestion, headache, dizziness, neuralgia, catarrhs and liver, biliousness, and all similar ailments, Theford's Black-Draught is the most reliable, gentle and valuable remedy."

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for all ages and all conditions.

CHANGE IN TAX LAWS NEEDED

What an enormous population! One year ago we had 1,400,000 people in this country. Now we have 1,700,000. This increase in population has led to a change in the tax laws, and it is necessary to change them again. It is necessary to change them again. It is necessary to change them again. It is necessary to change them again.

Engineer's Report On Water-Works

COMMENT. Made In 1904

The following report was made by Engineer Henry Stueben to the Carlisle City Council in 1904, when the question of installing a system of water works was under discussion. In view of the fact that an estimate on the part of a board for the building of water works will be submitted to the voters of Carlisle in a few days, it is thought that the report is worth repeating.

The report was made by several proposed sites for a new water works.

It is not possible to give a full description of the water works here, as it is a very large project. The water works will consist of a dam, a reservoir, a power house, and a distribution system. The dam will be built on the Carlisle River, and will be about 100 feet high. The reservoir will be built on the Carlisle River, and will be about 100 feet high. The power house will be built on the Carlisle River, and will be about 100 feet high. The distribution system will consist of a main line and several branches.

The water works will cost about \$100,000. The dam will cost about \$40,000, the reservoir about \$30,000, the power house about \$20,000, and the distribution system about \$10,000. The water works will be built by the Carlisle City Council, and will be owned by the Carlisle City Council.

The water works will be built by the Carlisle City Council, and will be owned by the Carlisle City Council. The water works will be built by the Carlisle City Council, and will be owned by the Carlisle City Council.
