Your Duty As A Citizen

Tuesday is Election Day. On Tuesday those who are to conduct the business of the county and city for the next four years will be selected. Are you interested enough in your city and county to go to the polls and vote? If you are not, you should be ashamed to admit it.

If you were selecting a man to manage your business for you, you would not trust his selection to others. Then why trust your neighbor to select the men who are to administer the affairs of the county in which you live? Lack of interest will not excuse you. To admit that you are not interested is to admit that popular government is a failure.

Go to the polls early; take some like-warm neighbor with you; exercise your prerogative as a man, discharge your duty as a citizen.

But before you go, read the list of names, published above, of the men selected in the August Primary to represent the Democratic Party in the race for county offices. There is no one of them, we believe, of whom you need be ashamed—none, but that will make an able and honest official.

Let no petty personal grievance against a candidate your party has selected lead you into betrayal of that party. Vote the straight Democratic Ticket, when you go to the polls on Tuesday.

SOME BUSINESS — NO POLITICS

(This column is owned and edited by the Carlisle Real Estate Company, who are responsible for what appears here.)

Gee, but farm lands are moving! Our buying farmers have waked up at last and they are going after them. While this rush is on the man who has a farm to sell should stand on no trifles—the time to sell is WHEN YOU HAVE A BUYER. The mill never grinds with the water that has passed, and this is the time to sell. We have some BRAND NEW Sharpsburg farms that were never advertised before, and they will last just about fifteen minutes. Look at this one:

175 acres, just outside the city limits of Carlisle, naturally of the very best land anywhere, a nice big new tobacco barn, house, known as the Johnson farm on the Carlisle & Sharpsburg pike just opposite the Graefer farm, about all in Blue Grass, priced very low. Will not split this away.

30 acres almost in the city of Moorefield, all in grass, house of 5 or 6 rooms, good small barn and very cheap at $65 an acre.

50 acres, nice almost new house of 7 rooms, barn, all in grass, school and church within four hundred yards, pretty place, cheap at $3250 for the place.

28 1-2 acres, no improvements but good barn, land lays up about fifteen minutes, this is a dandy.

36 acres belonging to same party, no improvements, $150. One hundred acres could probably be had the last time—86 acres good land, 14 acres pretty good tobacco land on pike, one of the best bargains we have ever offered, $43 an acre. To sell this tract you can't get this bargain.

150 acres fine land, good house, good barn, land lays unusually well, one of the cheapest farms ever offered at the price—$10,500 for the farm. If not sold at once will be withdrawn.

193 acres, a fine blue grass farm, extra good barns, good house, land lays well and will sell for $125 within a year from this date. Other people have found plenty of farms to house it in, the price $100 per acre, and the owner getting all of that.

125 1-2 acres, fine young tobacco land, one of the best we have to offer at the price—$65 an acre. To sell this one you can't get this bargain.

150 acres fine land, good house, good barn, land lays unusually well, one of the cheapest farms ever offered at the price—$10,500 for the farm. If not sold at once will be withdrawn.

176 acres acres in Fleming county, mostly level, will have 100 acres good tobacco land, two extra good barns, two houses, a orchard, all in grass, very cheap at $50 an acre.

118 acres, new house and barn, 40 acres good tobacco land, farm all in grass, and very cheap at $50 an acre.

Here's a new one—128 acres, 2 miles from Carlisle on the pike to Moorefield, new house, good house, tenant house, two good barns, pump and good water in farm, lots of tobacco and Blue Grass, attractive bargain at $115.

Here's a good one—185 acres, in Bourbon county, on the Cynthiana & Millersburg pike, about 3 1-2 miles from Millersburg, a very fine farm, 25 acres timber, not bad for a good deal, but not near so good is held at $150. This farm has extra good tobacco barns will house 25 acres, new house, fine blue grass. This farm will produce 20 acres tobacco every year forever, and offered at the low price of $85 an acre.

Another of 112 1-2 acres, buildings have just been worked over leaving extra good barn, house for 2 or 3 tenants, extra good addition, good land, and ONLY $75 an acre. Close to East Union on Somerset Creek.

65 acres right in the edge of Carlisle, all in grass, has good barn, land all in grass, has the magnificent Millersburg schools, price right.

185 acres, 1 mile south of Carlisle, all in grass, 95 acres pasture, good tobacco barn, stock barn, 8 room house, ain't it cheap at $85 an acre?

Lots of small farms, all sizes, all prices. We are the best equipped real estate firm in Northern Kentucky. See us.

Mrs. Robert Hamilton, aged 80 years, died at his home in Greensburg, Ind., Monday, death due to the infirmities of old age. The funeral was held Wednesday at 2:00 o'clock. The following dispatch appeared in Monday night's Louisville Times:

"Greensburg, Ind., Oct. 27.—Robert A. Hamilton, aged ninety-two years, the "Sage of Adams Hill," died at his home near this city, after a gradual decline, his life going out, like the last flicker of a candle burned to the socket.

Mr. Hamilton was of Scotch-Irish descent. His father and mother, from Pennsylvania and Virginia, respectively settled in Nicholas county, Ky., where he was born. Since 1852, he has lived on the farm, where he died, inherited from his father, who was a pioneer settler in this county.

He was always a son, "Hal" J. Hamilton, manager of the University Settlement, Mr. New York City, and a daughter, the wife of Judge D. W. Howe, of Indianapolis."

Mr. Hamilton was a former resident of this county. He was a member of the Old Settlers of Nicholas county, and has been a regular attendant at each meeting of the association for years, the past year being one of the first he had failed to attend. He is a cousin of Mr. Mason Hamilton, of this place and has many relatives throughout the county.

Oil Found Near Myers.

An oil well without drilling has been discovered in this county. Thomas Vaughn, who lives on the Cassidy pike, about one-half mile from Myers, noticed oil in the water drawn from a 9 foot well in his barn-yard this week. The water is clear, but has a slight brown tinge. Mr. Vaughn has been three inches of oil on the water. He bought a bottle of the fluid, which has the appearance of being a good grade of crude oil, to Carlisle Sunday. The geological formation in the neighborhood of Mr. Vaughn's place is similar to that in the Bald Hills oil field of this county. It is said an explosion was heard near the well last night before the oil was discovered. An effort to drill a well will be promoted.

Read the statement of the First National Bank in this issue. It's a good one.

The City Council Explains Proposed Bond Issue

The purpose of this article is to make clear if possible, the question of a bond issue, for the purpose of installing a system of water works in this City, the same to be voted on at the regular election, November 5th.

Be it thoroughly understood, if it is the will of two-thirds of the voters of this City, that bonds to the amount of $30,000 shall be issued, for the purpose of installing water works, that the said bonds, WILL NOT, and CAN NOT be issued, until satisfactory plans and specifications are submitted and approved, and contracts let for installing an adequate plant, neither can the bonds be issued for any other purpose.

Under the constitutional limitation, $30,000—being 2 per cent. of the total taxable property—is our limit of bond issue.

It is proven this amount is not sufficient to install a satisfactory and adequate plant, the bonds will not be issued, and the question will be met and void.

The council during the October meeting, thought it a very good plan to employ an engineer, and attorney, to draw up plans, specifications, and a bite, before the vote is taken on the bond issue. It would be needless expenditure if the bonds do not carry.

No plan or site, is under official consideration; these will be determined after consultation with engineers go over the situation and see what is best to be done to meet our requirements and conditions.

The tax levy of 7le is our limit and will not be exceeded. 25c of this 75c will be set aside to redeem the bonds and pay the interest thereon.

The president of the entrance organization that recently met here, publicly stated in one of his speeches during the meeting, that 25c our present insurance rate, was for not having a sufficient fire protection in the way of adequate water supply, and that the 25c would be taken off, if a system of water works were installed, and if this was duly done, he would not say, but that the present rate would be increased. A reduction of 25c means $2.50 on the thousand, which also means a saving of almost every tax payer in the City, and will almost offset the cost of installing a plant, besides giving a water supply for all other purposes, which is much needed. We feel confident if the voters thoroughly understand this proposition, the bond issue will carry with but little opposition.

Show the public spirit by voting for the bond issue, and lets try and put our little city in the progressive column, where she has long been. (Signed)

Lest You Forget

We desire to inform the citizens of Carlisle and vicinity that we are still making the BEST FLOUR on the market. It is made from our country wheat: there is no wheat equal to it and we have the mill and machinery for making it. Call and test for yourself and no superiors. WE DO NOT ALLOW BLEACHING. There is no poisonous substance injected into it to make it white, it is as nature designed. The last case with cement on bleaching flour was tried before a jury and was decided against the Government; the case is now in the Supreme Court. Pending this decision, large quantities of this bleached flour is being sold in this territory. Are you using it?
