Capt. Wesleys Seals

This marvelous animal act is one of the features of the Sparks Circus which is billed to exhibit here FRIDAY, SEPT. 6. A photograph of the exhibition of the New York Morning Telegraph of Saturday, Nov. 23rd, 1912, at which time these wonderful animals were playing an extended engagement at all the largest New York City Vaudeville Theatres.

The current week the electric lights in front of the American Music Hall blazoned forth "Capt. Wesley's Seals" and they after seeing the wonderful exhibition given by the seals is the exclamation of patrons which must have been utilized by Capt. Wesley to train the seals. Training horses, dogs and monkeys is easily understandable, but to take a quintet of sea lions, performing out of water, their natural habitat, and put them through a course of stunts, including walking tight rope, playing as a brass band, juggling rubber balls and other articles and even doing comic stunts, is almost unbelievable, and for once that hackneyed phrase "seeing is believing" can be given its proper setting, as the seals gets many laughs by his trick of applauding each stunt by the other seals. He does this by means of his flappers on the side of the stand from which he works. Capt. Wesley is a young man of the strong, silent type, which has contributed to the entire act that goes far toward making it an unusual animal act and a great favorite with the ladies and children."

SUIT IS THROWN OUT OF COURT

First of Tax Actions By Revenue Agent to Be Decided.

BURLEY SOCIETY WINS

Similar Claims To Be Heard in Forty-four Counties.

LISTING DUTY OF OWNER

Enormous Sum Represented By Taxes and Fees Sought.

RUINOUS COURSE DEPLORED

LEXINGTON, KY. — Upon the ground that proof presented failed to show that property rightfully taxable had not been listed or that any property at issue had been omitted from assessment, the suit brought by John Howard, revenue agent for the State at large, against the Burley Tobacco Company, in which recovery of sixty thousand dollars in taxes and twenty thousand dollars in fees was sought, has been thrown out of court. This was the first of forty-five similar suits brought by the Revenue Agent in the hope to be heard.

The lucid announcement of Judge J. Percy Goodloe, that he had closely read and carefully studied this case in dispute, which was a surprise to the attendance from counsel for the Burley Society, was that had been cited and also decided a notable octave, put his decision in line upon the feelings of those who had watched the course of the trial for two days, and the county court room resounded with applause.

Dismissed on Motion.

The decision was predicted on a motion to dismiss which was made by Judge O'Rear when counsel for the plaintiff had been duly heard. Judge Goodloe, after reading the petition filed by means of testimony represented in the depositions taken in the case, declared the finding immediately after court reconvened. Argument of counsel upon the motion continued until almost 4 o'clock, and the case was presented with the same thoroughness and upon the same merits as when it was tried in the full course of testimony.

Responsibility Were Greater.

Involved in the outcome was the pleading that responsibility for listing the property in question rested with the grower, and that the Society, in selling agent, was not liable for the taxes, this contention being abandoned by supported by decisions of the Court of Appeals submitted to the court. It was shown conclusively also that the law required that the property be assessed at the residence of the real and beneficial owner.

Victory Is Important.

The victory of the society was regarded as of large moment in that the Patrick County case contained the solution of keystone in the series of suits. The tobacco of fourteen counties in addition was delivered here for sale and consigned with some exception to the pool in the home office of the Burley Tobacco Society and the Burley Tobacco Company. Every interest in the action was enlisted by members of the Society who were of Lexington as well as a host of growers, and a number of them who had accumulated the certain had participated in the Burley Tobacco Society Club when the course of the Revenue Agent was known. The case finally set aside in bad faith, and therefore branded as unnecessary and hurtful, and calculated the tobacco interests of the State.

Litigation Hurtful.

It was conceded that in this action the Burley Society would bring his most effective evidence to bear, and it was also that the result would have important bearing upon other suits. The case had gone for three hundred and eighty thousand dollars, and the growers of the organization, and growers will acclaim final removal of the cloud that has hung over the leaf for the chance has been disposed of.

Taxes claimed in the forty-five suits aggregate $372,233.85, and 10 per cent on the items anticipated as the Revenue Agent and his attorneys made a enormous sum of $744.51, making a grand total of $1,149,774.
