Rural School News

Here I am, up in Salyersville, Magoffin county, spending my vacation. I attended a splendid teachers' institute last week where Prof. Culfee and I were instructors. Not splendid because we were instructors, but because the teachers, trustees and people made it a remarkable institute.

We had the court house crowded every session and they did not quit with the day sessions but had a special session every evening with a special program for each evening as adresses by one of the instructors or some one else.

Mr. S. S. Elam, the Magoffin county superintendent, has always adopted the Nicholas County School System and his schools had been in session one week before the institute and they are using the uniform daily programs of Nicholas county, our trustee visiting blank, etc., and the teachers and trustees are delighted.

Prof. Calfee, Pres. of Berea College, one of the best instructors it has been my pleasure to hear. Some one wonder could full work in this institute. Thursday was Trustee Day and forty-six trustees were present, not just in the afternoon, but came and spent the day. One man walked fifteen miles, one rode horseback thirty miles and another their twenty-seven miles and were there by 8 o'clock for the opening of the institute. Also twenty-five of these trustees I met in April when I was here in the Trustee Campaign. They are interested. They want better schools, better and more hundred teachers in the county, about twenty of whom are women. A splendid corps of bright and able women ready, respond when called upon, taking notes and asking questions here to raise the school standard.

During Trustee Day and the special program for them had been carried out, the institute went in a body, followed by hundreds of citizens, including trustees from Magoffin, a distance to, to Supt. S. S. Elam's beautiful home on the hill just above the town and Prof. Calfee carried out a program that I have never seen or heard of at any institute, a demonstration program. He had a seed tester made by the institute and taught the farmers how to test their seed corn, told the men how to plow their corn and why. He had two young women teachers to show the trustees and farmers how to measure and make rafters by demonstrating the work right there on spot. Elam demonstrated spraying trees to save the tree and improve the fruit. Over 100 people were there.

I want every teacher who expects to teach in Nicholas county the coming term to be at the last roll call of the week of preparation Monday, Aug 3. We will begin at 8:30 o'clock. I won't get to write to all of the teachers, but tell each other, and respond as you have always done, and be present on time. I'll be here the latter part of the week and in the office Saturday. This institute is free and good water has done me much good.

We want to do much next week in preparing for the school work. We are sure that the teachers will do their part.

To one and all I send a greet from Dallas Everette.

Every school in the county must be cleaned, floors scrubbed and oiled and the trustees of the Trustees will please see to it that the janitor does his work. A. T. Gardner will get it for you if you won't it before Saturday.

Two Touring Cars.
One Roadster.

That's all the Fords we have now and no more coming. Till the cows come home." We've been telling you and telling you that you'd have to hurry if you got a Ford this season and now they can't be had any more this season. The Ford factory has turned out more than two hundred thousand, made them, sold them, and got the money for them. They are behind with orders, made and sold more than ever heard of before, but still behind. Now, get one of these Fords before they are gone; some dozen people are negotiating for these cars and we play no favorites first come, first served.

The Ford is the most successful automobile ever offered the people of the world. It does more work for less money than anything on wheels. Everybody needs one, most everybody has one. You should have one and without further delay. If any delay we will not have the pleasure of selling you this car unless something unlooked for should happen.

Something unusual: A nice, well-broken, 4-yr old bay horse, a beauty if ever there was one. Solid bay, fine head and tail, speedy driver, stylish and kind, sound. We took him in a trade and have no earthly use for him. Not afraid of automobiles. Will sell worth the money—quick sale and no profits.

We have one more Overland this season to sell. It is a magnificent car, complete in every detail, luxurious, up-to-date in every respect. The watchword is JUST RIGHT.

Now get busy and come in and get one of these excellent cars before they are all gone. We need it, you'll like it, the family will like it. Better buy it now. If you delay the other fellow will get it. Today is the day of opportunity. Come and get it while you may.

Now about farms. Our real estate business is looking up good and strong. We have a magnificent list of farms and "the early bird gets the good one."

Here's a bargain; 305 acres of good land, two good houses, three good barns, one of them not yet finished, 250 acres good blue grass, abundance tobacco land for all time to come, land all lays good, only 3 1-2 miles from Carlisle on good pike and cheap as dirt at $50 an acre. You'll miss it if you miss this farm.

46 acres, nice small farm, 2 miles from Carlisle on the Minerva pike, good house, barn, good land, $100 an acre. Bargain.

90 acres fine land, red soil, Millers Station, good house, barns, no better land anywhere, $110 an acre and a bargain.

83 1-2 acres also at Millers Station, good house, good barn, well watered, not one inch but therefore will sell for $100 other what I would be worth $125 an acre.

153 acres, finest location in Nicholas county, excellent house situated in beautiful shade on right at the head of the valley, 80 acres first class tobacco land, all in first class condition, including barns, silo, corn crib, and cheap as dirt at $110 an acre. Now this is a home right here.

126 acres 4 miles from Carlisle on pike toward Moorefield, recent improvements, consisting of brand new 7-room house, modern, good barns, and cheapest farm you ever saw at $85 dollars an acre.

126 acres again all tobacco land, red right on the surface, will be soon, house two barns some fine virgin soil, 4 miles to make money, $6 dollars an acre. Now this is a bargain to the right.

160 acres 7 miles from Carlisle on the Maysville pike, 150 acres fine blue grass, abundant tobacco land as much as you want, good orchard, good pike, rural mail, telephone, good two story house, 2 barns, finely watered, every acre good and cheap at $115 an acre. It's a bargain sure.

148 acres only 1 1-2 miles from Millersburg on the Paris-Lexington pike, excellent improvements, one mile from Hinkston and only cheap at $137.50 an acre.

80 1-2 acres 2 miles from Millersburg on the Cynthiana pike, part class improvements, fine land in Bourbon county, cheap at $140 an acre.

HEALTH PAST FIFTY

Careful diet is of utmost importance to men and women past fifty years of age if it keeps up their strength, and the oldest in Scott's Emulsion is a nourishing food, a creative medicine and a sustaining tonic to regulate the functions.

It contains the combined medicine of pure cod liver oil and the glycerine purves that they furnish twice as much energy as other foods—then too, it creates pure blood, sharpens the appetite, relieves indigestion, strengthens the body and alleviates the pains and aches of old people.

Mysterious Disappearance Of Rich Georgian Causes Much Speculation

The disappearance of Mr. H. A. Morrow, a rich Georgian, whose sister-in-law last heard from at this place, where he had stopped while enroute from his home in Georgia to visit his daughter in Greenville, Ohio, is causing much talk, locally. There is an air of mystery about the affair, which has all the elements of a good detective story. As told here the story is as follows:

H. A. Murdock and his wife separated some years ago, the wife taking the infant daughter. At the years parted, the father lost sight of the child. In the meantime, it seems, Mr. Murdock accumulated a fortune. Recently his daughter in Greenville wrote her father in Georgia. He wrote that he was coming to see her. Some days ago a letter from him was received at Greenville, bearing a Carlisle postmark, saying he had reached this point on his way to Ohio, but was sick. At this time, it seems, his brother's children, who by a remarkable coincidence, live in Greenville also, heard of the contemplated visit, and, inasmuch as they would have been put into bein to the Murdock fortune had the daughter never been found, came here. It is also claimed, and interviewed the elder Murdock, who has not been heard of since, that the brothers of the wife of the former Miss Murdock was here the past week and told the story to the local post office officials practically as related above. A strange couple, believed to have been seeking Mr. Morrow's trail, have been here within a week. A description of this couple was given to the police of Carlisle, and it would not be claimed they were the children of Mrs. Greenville Murdock. It is believed beyond that of Mr.
