Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CARMEL, Ind.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping-chair, and soon became almost a skeleton. Finally my doctor threw away his medicine and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am able to do my housework. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 13th Knight St., Camden, N.J.

And this one from Mrs. Haddock:

URSA, ORLA.—"I was weak and nervous, not able to do my work and scarcely able to be on my feet. I had backaches, headaches, palpitation of the heart, trouble with my bowels, and inflammation. Since taking the Lydia E. Pinkham's Vegetable Compound I am stronger than I have been for twenty years. I think it is a wonderful medicine and I have recommended it to others."—Mrs. MARY ANN HADDOCK, Ursa, Oklahoma.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You have nothing to lose and it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored health to many suffering women for health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

400,000 Settlers a Year

Immigration figures show that the population of Canada increased during 1913, by the addition of 400,000 new settlers from the United States and Europe. Most of these have gone on farms in groups of Manitoba, Saskatchewan and Alberta.

Lord Milner Prep. an English Settlement says:

"The possibilities and opportunities offered by the Canadian West are so infinitely greater than those which exist in England that it seems absurd to think that people should remain in poverty-stricken circumstances when they can so easily secure a comfortable if not wealthy position."

How districts are being opened up, which will make succession a great number of homesteads in districts especially adapted to mixed farming and grain growing.

Admits She is Fat.

Stella Markey is fat—but plain fat. This is the term she herself applies to her handsome, without trying to disguise it as "plump" or "stout." And she doesn't mind talking with herself about it.

On a certain occasion she was letting her audience into a few of her secrets.

"I have tried everything recommended to reduce," she admitted, "but I keep on getting fatter. Why, there isn't a thing I read about, guaranteed to take off fat, that I don't try."

At this pause a woman seated in the second row, who had made herself conspicuous by several remarks during Miss Markey's talk, inquired:

"Did you ever try poison?"—St. Louis Post-Dispatch.

FACE ITCHED AND BURNED

883 No. Union St., Aurora, Ill.—"My ailment started with a little pimple and it always itched and burned terribly. I scratched it and in a few days my face was all covered with sores. It was in my eyes and the last day after I could not see out of my right eye. I was unable to get any rest, I couldn't go to bed, being afraid of getting the clothes disturbed, although I had my face all bandaged.

"I was given two jars of salve but it kept spreading over my face and one thing like a running sore became another. I used more than the salve so I had to wrap bandages around my head to keep the water and pus from running down my face. I was in this condition about six weeks before I had to wrap bandages around my head to keep the water and pus from running down my face. I was in this condition about six weeks before I had a sample of Cuticura Soap and Ointment and I felt relief after the first dose. I then sent for more and after using one cake of Cuticura Soap and one house of Cuticura Ointment I was cured." (Signed) George Miller, Jan. 31, 1914.

Fatal Defect.

Rev. Barnabas Shuttlesworth, a prevailing elder of the Methodist church in Shoestring, Ga., tells a story of a negro pastor down his way who failed to give satisfaction. Finally a committee from the congregation waited on him to request his resignation.

"Look here!" demanded the preacher. "What's de trouble wid yo' preachin'. Don' I argufy?"

"Yes sah; dem sildah," agreed the spokesman.

"Don't I sputify concernin' de Scriptures?"

"Yes sah'ntly dem," admitted the other.

"Den what's wrong?"

"Well, eldah," stated the head of the committee, "it's dis way. You argufies and you sputifies, but you don't show wherein!"—Saturday Evening Post.

Law Concerned Negligence.

In Kelsey vs. Rebentisch, in the supreme court of errors of Connecticut, it appeared that defendant, after notice that a division wire fence between his lot and a lot where plaintiff pastured his cattle was broken, took no steps to repair it and the following day plaintiff's heifers passed through the broken fence and reached a lot lying south of both of such lots and there cropped grass which had been poisoned in the misting of a spray for potato vines, in consequence of which part of them died. Defendant did not know that the potatoes had been sprayed, or that any poison had been applied on the grass and could not have anticipated that some person might have scattered poison about the grass there. It was held, assuming defendant's negligence, that it was not the proximate cause of injury.

ENGLISH DISHES.

The famous Devonshire cream is used in the following dish and it is

most delicious when carefully made. Put warm milk into a bowl and turn in carefully a tablespoonful rennet, being one tablet to a quart of milk.

Then when set add the scalded cream with sugar and cinnamon sprinkled over the top. Do not stir nothing. To scald the cream, put the pan of cream over the heat and set in a place where it will heat gradually and when a ring appears in the cream around it is time to remove from the fire.

Clotted Cream.—Put four blades of mace in a teaspoonful of rose water into a cup of milk and stir over a few minutes. Then add this slowly to the well-beaten yolks of four eggs. Beat the whole into a quart of cream and set over the fire, stir it till hot and do not let it boil; pour into a dish and let stand till cold. Then sprinkle with sugar and fruit. The clotting may be omitted if not liked.

Cambridge Cakes.—Rub three-quarters of a cup of butter into four cups of flour, then add three-quarters of a cup of sugar, beat two eggs and add to the flour. Roll out very thin and cut with a cutter. Prick with a fork and cover with caraway seeds or sugar with white of egg and sprinkle with sugar. Bake until brown.

Shrewsbury Cakes.—Sift together one cup of sugar, three cups of flour, a heaping teaspoonful of soda and a little nutmeg and a pinch of salt. Add a little rosewater to the eggs and beaten, mix these with the flour. Then add as much melted butter as will make a good mixture to roll out. Mold well and roll out in any desired shapes.

Harvest Cake.—Take a pound of fresh butter, beat it until creamy, add a pound sugar and six whites, beat in a pound of flour and a pound of powdered sugar. Beat until well blended and bake the heart in a hot oven.

Cause of Death.

"You say your automobile didn't run this man, and yet he was found dead when you picked him up?" shouted the prosecuting attorney.

"That's a claim, coolly retorted the prisoner. "My machine didn't touch him.

"And you were driving not over 17 miles an hour?"

"Not over 17 miles and—"

"And you saw this man start across the street?"

"Yes."

"Did you blow your horn?"

"I did—"

"What sort of a horn is it?"

"One of those two-syllabled clatter-boxes that create a sound that is a cross between a shriek and a dying wail."

"That explains it. You simply scared the man to death."

On Holiday.

While visiting his uncle in the country Willie was much interested in watching the ducks "tipping up" in a pond.

"They're most all young ones, aren't they?" he observed to his uncle.

"Why, no, boy, they're old ones. What makes you think they are young?"

"I thought they were young," Willie explained, "because they don't seem to be able to swim without upsetting."—Saturday Journal.

THE FRESH MUSHROOM

The season for the fairy, delectable mushroom is here. In early May the fairy ring will be found in the pasture and will be with us until late June. Then pitches them all. The best known and most delectable of the meadow mushroom found in the pasture from the middle of September to the last of October. In buying the mushrooms however, a little knowledge is quite necessary, for one should not have of the variety gathered before eating, as sometimes we have a mushroom appetite with a toadstool. The latter, or poisonous toadstools, commonly called, are poisonous in wrong, for all mushrooms are nonpoisonous if one can't distinguish a mushrooms

It seems such a pity that much of this most appetizing luxury which is made in places, provided so lavishly by Mother Nature, should not be better understood, so that they be used for food instead of being wasted by decay.

To the epicure Mr. Hard says there are but four ways of cooking mushrooms, broiling, roasting frying and stewing.

It is a possible to preparing mush rooms do not wash them as the water destroys some of the delicate flavor. If they must be washed drain carefully, and then use only the large, fat variet. Keep the stems for the sake of size and use only the caps. Peel them by beginning at the side and pulling at the top. Lay them on a buttered broiler, split up the stem quantity of butter, salt and pepper in the cap, and let them broil until the butter melts. Serve on toast.

The VALIANTS of VIRGINIA

By HALLIE ERMINIE RIVES

ILLUSTRATIONS by LAUREN STOUT

COPYRIGHT BY BOBBS-MERRILL COMPANY

SYNOPSIS.

John Valiant, a rich society favorite, suddenly discovers that the Valiant estate is mortgaged to the limit and that he is practically penniless. Without telling his wealth, his fiancé, Virginia Dandridge, he breaks their engagement and leaves for the West. Before the announcement comes of an old motor car, a fellow sufferer and Virginia's brother, Stanley Dandridge, and Virginia herself. Stanley finds that Valiant has gone to Wyoming and decides that he is going to like Virginia Dandridge. Virginia, however, is in love with John Valiant and Stanley's courtship is somewhat distressing. Stanley finds Valiant on a ranch and tells him that Virginia
