That Mr. Homer B. Brown has announced himself as a candidate for the office of Representative in the August primary. In this connection he has this to say:

"I enter this campaign with great reluctance and solely from a sense of duty I am, as every body in this Representative District knows a Republican. I believe in the principles and policies of that party; but if elected to this office I shall endeavor not to be a partisan so much as a useful member of that body of law makers whose efforts should be to make such laws as will be best for the people—ALL the people of the Commonwealth.

My record is that of a man who stands for the strongest kind of temperance legislation; if I am elected I shall make every effort to assist in perfecting the temperance laws now on the statute books and to enact others more effective if possible. I will assist in framing and in enacting a State Wide Bill that will be an honest bill and not a "bum log" intended to fool the people. At the same time I shall endeavor to prevent anything that will savor of unfairness to the liquor people.

"I am for better schools, for better roads, for joint nominations for Judicial offices, for the partisan control of the penal and charitable institutions of the State, for cutting out useless and expensive offices and for everything and anything that will advance the honor and glory of the great State of Kentucky, and I advance its standing among the great sisterhood of States.

"As matters progress I shall hope to make a more complete and detailed statement of my position on the various questions now agitating the people of this District and I have no hesitation in saying that I believe the people will find that I am not a "dodger" or "bridger" on any question now before the people of the District or of the State. I am ready to come before them; I will become a POSITIVE, and not a NEGATIVE character and will respectfully solicit the support of the people of this Representative District assuring all that if nominated and elected I shall do my best to serve them to the best of my ability in all matters.

Homer B. Brown."

Mr. Lake is most always by on time, so now I owe him three dollars and, another 1 dollar, and I'll be square with him. Now, Mr. Lake, all even, all square, just the farm you are looking for, and we can surely suit you, no matter what you want. Will you come in to see us about the matter.

Yours truly,
C. C. PEARSALL.

County School News

Last Monday Mr. John H. Mc Ferran, of Louisville, arrived on the 10:30 train. He had notified the committee before that he would be here at that time. He, being a friend of some of Mr. W. S. Dudley's Louisville friends, Mr. Dudley telephoned his sister, Miss Martha Dudley, to entertain Mr. McFerran at their home during his stay in Carlisle, so Dr. Spencer, Mr. Gaines Dudley and I met him at the train with an automobile and soon he was at the beautiful home. Miss Dudley had prepared a most excellent dinner, to which she invited Dr. Spencer, S. S. Veach, Gaines Dudley and me to join Mr. McFerran. At 2 o'clock that afternoon Mr. Ed. Bowen took Mr. McFerran, Dr. Spencer and me to Parks' Hill Unatapon Grounds where Mr. McFerran viewed the grounds and discussed the building of a Farmers' and School Community Meeting after the fashion of a Farmers' Chautauqua.

He was delighted with the grounds, and said it was an ideal place to hold it and made dates with Mr. Damon for August 4, 5 and 6; for the great educational meeting for the farmers.

W. C. Clark our very efficient county board member, went with us and it very much interested in the prospective meeting, so much so that he, Dr. G. E. Martin and Mr. Damon came up Tuesday night and called for me and together we went to the Dudley home to discuss the plans of the preparation with Mr. McFerran and several of the Carlisle business men who had been invited there.

Wednesday, Mr. Ed. Bowen took Mr. McFerran and me to several parts of the county visiting school houses and getting an idea of the topography of the county in order that speakers might be obtained for the meeting that would be able to give instruction to suit all parts of the county. First, we went to Harrisville school where we found the trustee, Mr. I. C. Taylor, and with him visited the house and grounds. Weeds were cut, fence white-washed, gate painted, the house as clean as though school were in session, the new organ added to the other improvements gave the house a splendid appearance. Mr. McFerran complimented the house and premises very much. From there we went to Saltwell where we found the weeds cut, but as the door was locked we did not inspect the house, on to Headquarters where we did not go in as we did not have a key, and on to the Feeback Hotel for dinner. Then we went to Miranda where all the weeds were cut, and the houses being remodeled. Then to Moorefield, where the trustee, C. S. Whaley, and Mr. Joe Whaley were having the house cleaned. The yard had not been cut as they were saving the hay.

Wednesday evening, Mr. McFerran met W. F. Clark, C. S. Whaley, I. C. Taylor, Jas. Martin, trustees, and Mr. and Mrs. Geo. W. Taylor at my home where a pleasant and profitable evening was spent.

Thursday, quite a reception was held in my office where quite a number of the business men of the town called to meet him. He left Thursday afternoon for his home in Louisville. He expressed himself as very highly pleased with the county and Carlisle. He is very much interested in seeing the farmers more awakened and better farming done here. The Farmers' Educational Meeting which he has planned and for which he appointed committees, will be worth thousands of dollars to this county.

Mr. McFerran's heart is in the world's betterment along rural conditions, and especially in seeing that the children back in the isolated places get a fair chance.

A PONY FREE

SOME BOY OR GIRL IS GOING TO GET A HANDSOME PURE BRED Shetland Pony, Harness and Rig

FREE

Ten Business Men of Carlisle are going to give to the boy or girl receiving the greatest number of votes one of those popular Perry Pony outfits, consisting of a pure-bred Shetland pony, rig and harness. The pony will be here in a few weeks, at least a month before the contest is ended, and will be shown on the streets. Read this all all the way through and enter the contest. You know the more contestants we have the less votes any one will need to win and some hustling girl or boy is sure going to get it. The value of the outfit is $360.00 and it's worth trying for. The votes are placed in the big ballot boxes and no contestant will know how he or she is running during the contest. So you see every one will have an equal chance. The votes will be counted by a committee chosen from uninterested persons at the end of the contest, October 31.

These enterprising business men of Carlisle are going to give to the Boy or Girl receiving the most votes a real, live Shetland Pony, A Dandy Pony Cart and Set of Harness:

Mobilization Now Going On

At the present time the most extensive mobilization in progress. Before the war was in full swing it took the different countries involved from 30 to 40 days to get their forces fully organized or mobilized. Mobilization simply means "a getting together" of the military forces and the preparation of protecting the country, or the financial interest of the farmers in a country. The mobilization into Rural Credit Associations by thousands of millions of dollars worth of farm values will enable the farmers to have abundant capital to make every acre of their land productive. At the present time the Rural Credit Association is mobilizing the farmers of Kentucky into a body for the purpose of getting loans on their farms for long periods of time at a very low rate of interest. When the association has received the endorsement of men in various parts of the State, from the President of the Bluegrass Union, to the most humble farmer, is it not worth your while to investigate? We are always glad to explain the method and by the time you read this we will have additional proof of this The Greatest Benefit to the Farmer that has ever been inaugurated. Come and see for yourself that we really mean what we say.

The stability of farm values as they now exist is on a firm foundation. We can show you town by people in Nicholas County that have been waiting from 10 to 15 years for farm lands to decline in order that they might buy cheap farms. These same people will be waiting that much longer, but you, Mr. Good Business Man, had better not delay, but come and see us about one of the good things we have listed. Do you want to make 11 per cent on a piece of city property? We have that identical value waiting for some sane business man.

It's So Hot

THEY ARE ALL MELTED Down

The way we declared on our stock two weeks ago was very successfully waged, but the hot weather has melted the prices down so much lower that their own makers would not know them.

In fact, this hot weather has been so hard on our prices that a little cold cash will buy so much genuinely good merchandise that you'll think we stole them.

See these suits and the prices we are asking on them, and we have no fear that you won't buy; and once our customer, always our customer, for the memory of the quality lasts long after the price is forgotten.
