Mayor Otis N. Tenney Dies In Lexington

Wants Divin' And Yanthey Doodle' Played At Funeral

Mr. Tenney, who was stricken with paralysis on March 31, died Thursday morning at 10:30 o'clock at the residence of his daughter, Mrs. Ben Johnson, on Second street, Lexington. Funeral services were held at the residence Saturday afternoon at 2:30 o'clock, conducted by Rev. Dr. J. R. Wilson, of Cincinnati, assisted by Rev. Dr. Hamilton Pierce, of Lexington. Interment was in the family lot in the Lexington cemetery.

Mr. Tenney was born in Carlisle, Ky., on March 28, 1837, and was therefore in his seventy-ninth year. He was the son of Captain Otis Tenney and Esther Miller Tenney. His father was a captain in the War of 1812 and Daniel Tenney, his grandfather, was a Revolutionary soldier. He was a descendant of Nathaniel Tenney, who came to America in 1635 and settled in Newbury, Massachusetts. Later members of the family moved to Massachusetts to Yorkshire, England, in 1650.

He was educated at Norwich University. In 1861 he moved to Kentucky, establishing a military school at Fort Mason, near Mt. Sterling. At the same time he commenced the study of the law under Col. Walter Chiles, but conducted the school until 1869, when he was admitted to the bar. Until 1862 he practiced at Mt. Sterling.

With the outbreak of the war Prior to the Civil War, Mr. Fisher's parents were moved to Paris, where he attended the Bourbon Seminary, then conducted by Professor Thomas Johnson's father. After graduating he studied law and was admitted to the bar. He then returned to Mt. Sterling and began the practice of his profession, but was soon elected to the office of Commonwealth's Attorney, which office he held for eight years.

His bachelor quarters were the resort of congenial spirits who have long since departed. He was a good cook, a crack shot, a successful hunter and an occasional game of cards. During his bachelor years he is still in evidence as a practical joker and took part in most parties given in polite season of his favorites.

For more than fifty years he was a member of the Christian church. One day in the early 70's, Judge Hiram Bradley, noted as an orator and lawyer, and reflecting rather strongly upon the fighting when Lee surrendered, was baptized and joined the church. Because Mr. Tinkley had been a staunch friend of Mr. Bradley's during the war, he had forwarded him with the request that he baptize Mr. Bradley, as he was also joined in jail. It was a horrible request that required the utmost of any minister in connection with the thing in connection with the thing in question, but Mr. Tinkley did so, and Mr. Bradley lived a consistent Christian life. After this he withdrew from the church, but he lived a truly free thought literature.

"DAMAGED GOODS" TO BE SHOWN HERE SATURDAY.

RICHARD BENNETT in "DAMAGED GOODS"
A MUTUAL SPECIAL FEATURE
IN SIX PARTS—AMERICAN

The plot of "Damaged Goods," pitiable by the fact that he is engaged to be married to a decent young woman.

A long delay in the wedding is bound to set tongues wagging, and like the rest of us the poor fellow is in mortal dread of what "people" will say about him. He buries his secret from all, but he must hide it from himself. He is on the point of doing away with himself when he is rescued by the girl who had contaminated him. The girl tells of her own salvation from mental and bodily ruin through the administration of a highly skilled and noble hearted physician. She urges her victim to consult the same doctor.

The doctor examined the young man and tells him that it will take at least two years to regain his health. He adds the significant warning. If he marry before that time you will be a criminal! In the meantime his mother, his bride and all his relatives and friends ply him with arguments to hasten the date of the marriage. He evades as well as he can and finally appears at this doctor until he reads an ad. of Sapolio, as the source of all victims of blood poisoning in the country. He starts for the quack, whose name manager has given him, and discovers his error by knowledge and the prompt steps he takes to correct it.

The rest can indeed be told much better in pictures than words.

The Barphone

The Barphone is a new invention which is on a fair way of revolutionizing the telephone system. As is well known, the American telephone is often very unsatisfactory, but the drawbacks are totally done away with the Barphone, which makes telephoning as clear as conversations just as clear as on short distances. Experiments are said to both ears and all noise is excluded. Persons hard of hearing, who hitherto have been prohibited from using the telephone, can now use it with the aid of the Barphone, which also will permit two persons to hear the message without the use of double telephone. The Barphone is the only simple, practical and effective sound intensifier in existence and is unconditionally superior to all others, especially as it leaves the hand free for annotations during the conversation. Increases the sound wonderfully. Indispensable to all telephone users. Always adjusted. Non-electric. Ever ready. Lasting many years. Sample $1.00 postpaid. Satisfaction guaranteed or money refunded. Agents wanted everywhere; good terms.

"Give us TRACTION, without FRICTION!"

MAKING the "Silvertown" Cord Tire tractionless was a feat accomplished only after years of experiment. Speed was the controlling factor. Of course, these TWO layers of Cords, laid transversely,

But, we found by experiment that, for comfort in the Thousand understand, it is only these and elastic enough to act as a sort of spring between the tread and the body of the tire, as well as to be the wonderful Alloyed Steel and Rubber Cushion in Goodrich Motor Car construction.

Building Better Efficiency.

As we cannot yet supply half the demand for Goodrich Silvertown Cord Tires—until enough new factories are completed with the latest and most economical manufacturing facilities—we have decided to discontinue the manufacture of Fabric Tires for the present.

This makes GOODRICH Fabric Tires the most Efficient and Serviceable Pneumatic Tire now built. Long Lived and Lively, of all FABRIC Tires, at ANY price, without increasing their relative price to you.

We call this new Silvertown Tread Compound by the same name as the Cord Tire—

Because, it CLINGS to the pavement for the same sort of reason that your base ball clings to a slippery floor.

TENACIOUS, resilient, resisting—this Hartford Rubber* you today get in all hard-tread Goodrich Fabric Tires,—*Goodrich Motor-Cycle Tires,—Goodrich Truck Tires,—*Goodrich Bicycle Tires,—*Goodrich Rubber Heels, Overshoes, Boots and Shoes, and in Soles for GOODRICH Tennis Shoes.

Test out a pair of these moderately priced Black tread FABRIC Tires and see what results from the mixing of BRAINS with Rubber.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk any where at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without stopping me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Having just printed and delivered our latest revised directory, we must respectfully urge that Carlisle is now too large to continue the old fashioned way of calling by names instead of by number. This is not mentioned for the reason that we are not accommodating, for we have always endeavored to serve, but which idea might be conceived by some, but experience has taught us that calling by number is the only way of handling the business to insure prompt and efficient service.

If you cannot find the number with which you wish to communicate, or if you wish information regarding any number or names you find, or do not find in the book, call Chief Operator, who will cheerfully give you the information or connect you with the Manager who will always lend a helping hand.
