Health League Notes

Mrs. Shaffer informs us that there has been no report of a brief appeal for a regiment and review. There are two cases of tuberculosis reported in the district—fifty. She has no place to send them. There is no room for them to work, tuberculosis patients. We have not room enough to care for tuberculosis patients. We have not room enough to care for them though, but at present we have no room for them. No person will take or give them to us. Have you room for them? Some one should take this work, but in her office there is no room for them. We have not room to send or advise or a nurse to visit them. Will you help?
