The Ringling Brothers Circus which has been finishing up the season in the Southern States, recently lost eighty-seven head of work horses in a fire which destroyed one of their large horse tents. They immediately signed the Hagenbeck-Wallace show to ship them fifty head of horses to Clarksdale, Miss., which enabled them to go on and finish out their bookings. The horses lost were valued at about $150 per head.

Rengo Belt
Reducing Corsets

Improve Stout and Medium Figures

Rengo Belt Reducing Corsets are built on scientific principles and are thus sure to improve stout and medium figures.

The first consideration in tailoring these famous corsets is that their strength shall be multiplied by two; that they may withstand every strain demanded of them under the most trying circumstances, and that their beautiful original lines shall remain unbroken through a long season's wear.

The famous *Rengo Belt* system of tailoring insures these features, but there is added steelastic webbing in several of the models to take away strain where needed. Examine the new models and if you demand in service and strength more than ordinary corsets can give—if your previous selections have not held their shape—you will find lasting satisfaction in a proper *Rengo Belt* model.

There are models with and without steelastic webbing—all are boned with double watch-spring steels *guaranteed* not to rust or rust.

Hot School Lunches

Many Schools Provide For Hot Lunches Regularly

In the belief that a hot dish at noon, if only a bowl of milk soup or a cup of good cocoa, is highly important to school children, many schools throughout the country are either supplying a regular hot luncheon to school children, or are providing a single hot dish with which the children coming from a distance can supplement the cold food in their lunch baskets. In most cases the children bring money with them and buy the dishes at cost price. Those in charge of the lunch room see to it that nothing is for sale that would be hurtful to the children, and direct them in their purchases so that they will not buy merely sweets or pastry. This overcomes the danger of the child's spending his money unwisely or patronizing an unsanitary shop.

To assist schools wishing to undertake this desirable activity, either through teachers or groups of co-operating mothers, the home economics specialists of the department, in Farmers' Bulletin No. 712, suggest the following economical and easily prepared bills of fare for the school lunch:

1. Vegetable-milk soup, crackers, raw fruit, plain cake.
2. Meat and vegetable stew, bread and butter, sweet chocolate.
3. Boiled custard, lettuce sandwiches, fruit, cookies.
4. Dried codfish chowder, crackers, fruit, maple-sugar sandwiches.
5. Bean soup, crackers, baked apples, sponge cake.

In addition the school can serve hot cocoa, cooked fruits, berries, and liquid or other foods which it is difficult to carry in baskets. Almost any school by the use of paper cups can make good milk available to children at noon. The school can also serve on sale good soups, cookies, sandwich, or crackers supplied from the outside.

As the serving of an entire lunch can only be considerable equipment and dish washing, many country schools will find it easier to supply simply one hot dish, a cup of cocoa or a glass of good milk. The milk could easily be provided through arrangements with parents or nearby farmers, and is particularly useful to children in warm weather when it is unsatisfactory for them to bring bottles of milk in their baskets.

In a number of city schools the pupils are provided with trays and help themselves to the food placed on a counter. At the end of the meal they return the trays and dishes and thus reduce the amount of help required. In some large cities a trained supervisor is employed to regulate all the public school lunch rooms. In other schools the preparation of lunch is made a practical exercise for classes in cooking and domestic science.

In certain small country schools with only one teacher, however, the social problems are the most difficult problems. Only a few pupils ordinarily spend a thousand for her work can carry out the plan, and even with such a teacher the active co-operation of parents is highly important.

The simplest equipment includes a large kettle, measuring cup and spoons, paring knife, mixing bowl, dish pans, and towels. The pupils should be willing to bring plates, cups, bowls, and spoons from home. Individual glasses can easily made contained shelves for the utensils. A fireless cooker, which permits the preparation of most stews, meat and bean soups, and cereal puddings can easily be made by the pupils as a class exercise.

The older girls, taking turns in groups, commonly prepare the special dish for the day. In cold weather the luncheon can be served out of doors, but at other times it may be necessary to serve it on the children's desks. This will not be objectionable if the desks are first cleaned and covered with clean paper or paper towels, and if the building is well ventilated and screened against flies. Safe water and milk should be provided. Serving, and washing dishes is essential, and care must be taken that all dishes all should first be boiled.

NOTICE!

I find it necessary to warn trespassers against hunting on my farm. Any one found on the premises of Carlisle or Kiser Station turnpike, for the purpose of shooting, gathering walnuts, rabbits, chickens, rabbits, or whatever they can find, I will prosecute to the utmost of the law, whoever they are, and regardless of who they may be.

WM. D. BARNES,
R. No. 2.

THE BRYSON FARM AGENCY

Boys, I found a BIRD one day last week: It is a farm of 102.76 acres located about 5½ miles from Cynthiana, has 44 acres meadow that makes your eyes water: a splendid tobacco barn, a good stock barn, a 6 or 7-room residence, and the price is ONLY One Hundred and Ten dollars per acre. I don't believe there's as good a farm bargain in a hundred miles of Carlisle. Tax farm adjoining, no better located, is held at $150.00; honestly, this is the cheapest farm I have seen since I have been in the real estate business. The owner says the present price will not be adhered to except for a short time only, so Boys, get a move on you and buy this GREAT BARGAIN. I'll be sorry if you let it pass for I know there's money in it.

NOTICE MY BIG PUBLIC SALE ON DECEMBER 16th—

WM. MASSIE'S BIG FARM—

EVERYTHING GOES.

If you're looking for a farm that doesn't cost much and still has lots of room, you'll find it in the one I have. look over this one: 125 acres, one very attractive residence beautifully located, a 6-room tenant house in good repair, a 46-foot tobacco barn, a 40 x 60 combined barn, a splendid stock barn, fine young orchard (bearing), splendidly watered, good fencing, and $6.00 per acre will buy it all. Better investigate this proposition—it's a good one.

Here's a nice little bargain—58½ acres of GOOD land, on excellent pike, 6 miles from Carlisle, 40-foot barn, 5 or 6-room house, in first class neighborhood and $4,000.00 will buy it. There's a prospective profit of TWO THOUSAND DOLLARS in this place. You can take it or let the other fellow have it.

WM. MASSIE HAS TO SELL HIS FARM. PEASE SEE HIM SICK BE THERE AND BUY IT. DECEMBER 16th.

I have 40 acres all in grass for $2500.00, has house and new barn. Also 42 acres with 2 houses and 2 barns for $2500.00. Want 'em?

111 acres, best located farm in Nicholas county and that's saying something, has good house and barn and ALL in grass, 3½ miles of Carlisle, GOOD, PIKE. $120.00 per acre will buy it. IT'S YOUR MOVE.

Those 80 acres at Massie's Sale ought to go cheap. You'll probably want those feeding cattle also.

I also have that 120 acres of land that I've been offering at $45.00 per acre the other day; you'll better hurry about that land: it is one of the finest tracts in the county.

MASSIE'S OAKLAND AUTOMOBILE WAS BOUGHT THIS YEAR: IT'S AS GOOD AS NEW. BE THERE AND BUY IT.

Now, let's take home just for a minute: I am offering you 102 acres of mighty good land and with excellent barns and other improvements, just across from Carlisle on excellent pike. Why not buy this farm? It's a pretty place to live, it produces splendid crops, is certainly worth the money, and is a pretty distance from town: the price, $100.00 per acre, is certainly mighty low. Wake yourself up, old friend, and buy this good farm. You'll be sorry if you don't, for before many years, almost like this don't come every day.

Now, let's have a SMALL farm and a GOOD farm let me sell you this one: 25 acres, right at the good village of Hookstown, nice big house, good barns, EVERYTHING GOOD, and the price right.

BARGAIN: 165 acres, 5 miles Carlisle, good land, nicely remodeled residence in fine condition, good barn, small watercourse, 4 a 10x time—$65.00 per acre.

Some more: I am going to roll a bunch of money right up against your nose and BEG you to buy it. 55½ acres of Carlisle on GOOD pike, 5 or 6-room house, 60-foot barn, land naturally as good as grows anywhere, and I can show you $2000.00 profit in it and sell it to you for $4000.00. It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big wagon mill.
