COMMENT

Give them something they will appreciate—Use Mercury Want Ads.

High school girls need to be taught to spend the family income—News Item.

Correct.

We do not know whose name the new tax bill will bear, but knowing him as we do, we feel that Reuben Hitchcraft, of Scarlton, had a leading part in its framing.

The Mercury wishes you a Merry Christmas and a Happy and Prosperous New Year. As the Persian lover tritally puts it: "May the storm of your life be as that of a river whose waters are golden."

Don't forget the children next Monday—it is their day of all the days of the year. Especially should you remember the one for whom no full stocking will swing in the chimney corner on Christmas morning. The more you love them the more you could make a whole family of kids happy.

And now the government is trying to add a little to the high cost of living newspapers. If the bill now being considered by congress becomes a law, it will be a misdemeanor to publish in any paper particularly officials, or, if it is not up to standard, we ask you to be prudent. We have been moving some heavy machinery, which has meant time lost on the paper. The advertising, too, is heavy, as it usually is at Christmas, and our news columns necessarily suffer.

Fayette and Madison on mine are the leading boys in the silver and trolley line will connect Lexington and Richmond. The Winchester Democrat says: "Good-bye, Richmond, you'll soon be just a suburb of Lexington." Perhaps over Richmond they look at it like the typo printer agent who was transferred from Chicago to Peoria. After a week's stay he wrote back to friends in the Windy City: "I am not dead, but I am a long ways colder than the mayor of Peoria."

Big and little publishers have been attending the investigation of the high price of print paper at Washington. The result of it so far has been that the publishers have used present prices are guaranteed by the manufacturers upto say present prices will prevail all the same. It looks like it is going to be a long winter for the press and you know MERCURY during 1917.

Elsewhere in this issue will be found an article from the Wall Street Journal which discusses the price of news print paper for next year. The prices mentioned in the article apply to the Eastern mills, with which we are contracted for at the mills. We frequently believe have to buy through jobbers and will have to pay more than twice as much for the same paper. Oh, well, the milk man, the egg man, the meat man and the grocer are paying more and asking for more. We didn't want to be in the game we'll have to "pass the buck," too.

We are authorized to announce ALFRED BURBAN as a candidate for County Judge, subject to the action of the Democratic Party at the Primary, August 4th, 1917.

We are authorized to announce as a candidate for Jailer of Nicholas County, subject to the action of the Democratic Primary, August 4, 1917.

Wm. Massie Dies Suddenly Sunday Morning.

Mr. William Massie, a large land owner of the Goose Creek vicinity, died suddenly at his home on last Sunday morning of heart trouble from which disease he had been a sufferer for the past several months. He was confined to his bed during the week previous to his death.

Funeral services were held at his late residence Monday morning at 11 o'clock and the remains laid to rest in the cemetery

Mr. Massie was for a number of years precinct Committeeman from the Goose Creek precinct and was prominent in county politics. He owned several hundred acres of land in that community and the day before his death a portion of this land was sold at public auction. It was his desire to retire from farm life on account of his health.

His wife preceded him to the great beyond four years ago.

This Week's Tobacco Sales.

Sixty-five thousand pounds of tobacco were sold on the Carlisle tobacco market Monday. Prices received were the highest on record at the yards.

The Farmers warehouse reported their Monday's sale of 17,706 pounds at an average of $18.82 a hundred. Yesterday's sale totaled 5,000 pounds at an average of $15.50.

The Burley warehouse sold Monday 15,000 pounds at an average of $18.10. Yesterday they sold 7,000 pounds at an average of $15.50.

The People sold Monday 20,000 pounds at an average of $17.75 and yesterday they sold 11,000 at an average of 17.87.

W. T. Roberts "Announces For Jailer."

The above picture is a splendid likeness of Mr. W. T. Roberts, who announces this week as a Democratic nomination for jailer at the next election.

Mr. Roberts is a farmer and resides in the Cassidy Creek precinct, where he has spent the past few years he has served the County as constable from the Third district and has made a splendid officer and should he be nominated and elected to the office of jailer, no doubt he will fill this office with credit to himself and those who supported him.

Mr. Roberts has a wide acquaintance in the county and will be a strong contender for the office.

Sam K. Veach calls your particular attention to the new muffler found elsewhere in this paper and you'll buy one.

There is a movement on foot to establish a hospital in Carlisle. It should have the support of every one.

Bourbon County Man Killed In Washington.

Mr. Charles Edward Rice, aged fifty-one, a native of North-Middletown, Bourbon county, and president of the Rice National Bank of Fulton, Ky., was struck and killed by a street car in Washington, D. C., Friday night. His skull was fractured, and he sustained injuries which caused almost instant death. Mr. Rice had been visiting in the city.

Those who owe The Nicholas Advocate or The Carlisle Mercury on subscription are requested to call at The Mercury office and settle, as their earliest convenience. In taking over the Nicholas Advocate, Mercury Company purchased the subscription lists of both papers and all money due the Nicholas Advocate will have to be collected by the new company.

Those who owe The Carlisle Mercury will find the date of the expiration of their subscription printed on their label and run off with the four weeks. The mail carrier will not be delegated with the whole performance but he will go to the wrecked wagon and watched it burn in the street.

NOTICE!

To The Patrons Of The Carlisle Post Office

Your attention is called to the regulations of the Post Office Department in regard to the mailing of Christmas packages, as follows:

Packages must be fully and plainly addressed.

Address parcels fully and plainly. Write name and address of sender on all packages.

Pack articles carefully and wrap parcels securely so that they will not come open. Use stout paper and twine as sealed parcels are subject to postage at the rate of one cent.

Mail parcels early; they may be delayed by the rush incident to the holidays.

Insure all Christmas packages.

Written inscriptions, such as "Merry Christmas," "Happy New Year," "With Best Wishes," etc., may be written on or in Christmas packages this year.

Where a package is sent in some distant place, it is advisable for the sender to mail it early, as the later Christmas rush may prevent its prompt delivery.

COUNTRY'S NEWS PRINT BILL $45,000,000 MORE.

(Wall Street Journal.)

Confronted with the high cost of news print and the possibility of further forcing the newspaperpoor of necessity or a general increase in advertising and subscription rates European countries have taken steps to protect the publisher from the loss by regulating the price of paper, paying the difference between the present price and a normal price, or limiting the size and quantity of newspapers. Recently the Spanish Government authorized a special appropriation of $100,000 to guarantee to mills the difference between the price of paper in 1914, and the price now prevailing.

The United States government is now conducting an investigation of the paper industry through the Federal Trade Commission to determine whether or not the price charged for news print is reasonable and what means to take to remedy the situation. A hearing on this matter will be held in Washington on December 15. The question arises: How much would it cost the United States if legislation similar to that of Spain were to be taken by this Government?

The annual production of news print in the United States and Canada is 1,800,000 tons. Allowing 100 tons to Canada and 75,000 for export would leave a balance for use in the United States alone of 1,725,000 tons.

The cost of news print in 1915 (a normal year) was about $2.50 a hundred pounds delivered. The price announced by the International Paper Company for 1917 is equivalent to $3.50 per f. o. b. mill. The increased cost to publishers in 1917 is figured by attorneys in a position to know at from $35 to $40 per ton, including freight, storage, etc.

About 15 per cent. of the tonnage will not be affected by the new price as the publishers are either protected under contract or have their own mills. This would leave a total of approximately 1,500,000 tons on which an increase of $10 per ton will have to be paid, a total increase of from $37,500,000 to $45,000,000 annually. Of this amount it is estimated the city of New York will be called upon to pay from $7,500,000 to $9,000,000.

International Paper Company whose 1917 price has been announced as the news print consumed. Although some additional tonnage may be added the large mills have been made at a price about 50 per cent. higher than the International Paper Company's price. It is believed that the average will be nonetable ably higher than $3.50 a hundred for 1917.
