Former Carlisle Pastor Heads Family Of Lawyers

The Milwaukee Journal of December 26th has an interesting article with pictures of J. H. Stover and his four sons all of whom are lawyers.

Mr. Stover was pastor of the Christian Church here in 1872. He performed the marriage ceremony when Mr. and Mrs. Joe Mayes were wed.

The youngest son, Harney B. Stover, has just been admitted to the bar. The other boys are Paul, John S. and Daniel G. Stover. The Journal says:

"James H. Stover, senior member of the firm, and father of the four partners, has been a Milwaukee lawyer since 1892. He was born at Crawfordsville, Ind., March, 1847, was reared at Ladoga, and when 16 years old, entered Transylvania University, at Lexington, Ky. After leaving college, he lived in Indiana, Kentucky, Iowa and Colorado. In 1882, he moved to Wisconsin and engaged in life insurance business for ten years. Is This Your Child?

Many children lose months of valuable time at school, when they are pronounced backward, simply because they cannot see the words or figures on the blackboard clearly. Have your child's eyes examined by an optometrist, without the use of drugs, and see how much better they will do.

Dr. Mathias, who has had years of experience in this line, is a graduate optometrist, and will be pleased to examine your child's eyes free of charge. Consultation free.

These defects are rarely discovered without the complete examination by an optometrist, without the use of drugs, which we do not use.

Dr. Mathias, who is also a graduate optician, who are prepared to fill any lenses, have facilities and charges reasonable, based to contest, should by all means have their eyes examined at once.

The child who is slow to learn is rebuked by the teacher, punished by the parents and is many times kept back. Think what this is to a sensitive child. Have your child examined by Dr. Mathias to all, and in many cases leads to the best results.

Fitting the child in and let me make an appointment and I will tell you the exact condition, and then properly fitted glasses will make the child normal in vision.

Broken lenses replaced accurately and promptly.

STANLEY'S GOOD ROAD POLICY

The Address of Governor A. O. Stanley, Before Ky. Association, Sept. 15, 1915

COUNTRY MORE ATTRACTIVE

"Back to the Country" Problem Will Never be Solved Until the Country is Made More Attractive—Good Roads and You Will Lose None of the Sweetness of the Farm.

Louisville—Address of Governor A. Stanley Stanley before the Kentucky Association of Counties, at Lexington, Sept. 15, 1915.

Ladies and Gentlemen: I am very grateful to my good friend, Mr. McBride, for his very kind introduction. He should not be ashamed to him for his years at Frankfort, and the splendid public services rendered in a cause bottom that I have at heart. I am glad to be with you, and to meet the men who, by their votes, have given the people of Kentucky a good road system. With honor and credit to themselves they have given to every county which has voted for it the opportunity to have a system of roads which will be a monument to their memory. They have done more than that. They have given to the people of Kentucky the opportunity to improve the land they own this great commonwealth. They have given to the people of Kentucky the opportunity to have a permanent home. They have given to the people of Kentucky the opportunity to have a permanent address. I am not here today to attempt to make a political speech. I am not here today to attempt to discuss the question of politics. I am here today to discuss with you, as neighbor to neighbor, as citizen to citizen, as one who is interested in the welfare of Kentucky, my time will be short, and I shall not take up much time. (Applause). This is a subject that is of interest to every man, woman and child in the State of Kentucky, and I am sure that you are in favor of good roads. I am sure that you are in favor of the building of good roads, good roads that will last, roads that will be a monument to the men who have given them to the people of Kentucky, roads that will be a monument to the State Government that has given them to the people, roads that will be a monument to the men and women who have given them to the people of Kentucky, roads that will be a monument to the State Government that has given them to the people of Kentucky, roads that will be a monument to the men who have given them to the people of Kentucky, roads that will be a monument to the men who have given them to the people of Kentucky, roads that will be a monument to the men who have
