

WESTERN CANADA'S GREAT HARVEST

Developing of economic growth in Canada, the most important feature of the year from a trade and financial standpoint has been the harvest of the West, which has been a boon to all sections of the country.

The Ball of Fire

of GEORGE RANDOLPH CHESTER and LILLIAN CHESTER

Illustrated by C. B. RIDGES

There are a few who are not satisfied with the usual explanation of the origin of the universe. They believe that the universe was created by a ball of fire which exploded and scattered its fragments over the earth.

The ball of fire was a glowing sphere of incandescent gas, which expanded and cooled as it moved through space. As it cooled, it condensed into a solid mass, which then broke up into smaller fragments.

These fragments were scattered over the earth, and some of them fell to the ground. They were then subjected to the action of the sun, which heated them and caused them to expand.

The expansion of the fragments caused them to break up into smaller particles, which were then scattered over the earth. Some of these particles were large enough to form rocks, while others were small enough to form dust.

The dust particles were blown about by the wind, and some of them were carried to the tops of mountains. There they were subjected to the action of the sun, which heated them and caused them to expand.

The expansion of the dust particles caused them to break up into smaller particles, which were then scattered over the earth. Some of these particles were large enough to form rocks, while others were small enough to form dust.

The dust particles were blown about by the wind, and some of them were carried to the tops of mountains. There they were subjected to the action of the sun, which heated them and caused them to expand.

THE CARLEILL MERCURY

There are a few who are not satisfied with the usual explanation of the origin of the universe. They believe that the universe was created by a ball of fire which exploded and scattered its fragments over the earth.

THE EUROPEAN WAR A YEAR AGO THIS WEEK

On this day a year ago, the European war was in its first year. It was a time of great hardship and sacrifice, and of the loss of many lives. It was a time when the world was united in a common cause, and when the people of all nations were fighting for the same principles.
