

Preparedness.

This expression has become so common recently that it is hardly good to use in an advertisement, but it is all right if people will prepare for the right thing at the right time.

The last preparation, Nalophas People's Guard, makes you contented with an automobile, to buy a PAHO and get ready for that good weather, which is near at hand, and which is worse to come than war.

This prepared you can enjoy yourself with a clear conscience. Know that you have invested your money, safely, and that for the pleasure and enjoyment you are burning up good money by getting into it, you are doing for the nation, as you would with a more mature investment or wearing out large expensive tires.

Familiar with a PAHO you can get from 15 to 25 miles to the right, and your tires being small, also stand up better, all other expenses in this, and when the clouds of the war, and the noise have been off, and you realize what you have on your hands, say as many as I wish I could add this and buy a PAHO.

We can do, and have everything you need in Automobile line.

Agents for Republic Tires, the best value in truck tires.

Agents for Westinghouse Motors and Lighting Systems for Farms.

We have for sale one 1/2 Motor Cycle, good as new at a bargain.

OLDHAM'S COUPON SYSTEM

Have you not long been discontented with the old system of running a charge account, and at the end of six months having the whole family out of humor for a month because you found you owed nearly every one and owed them as much as double what you thought you did? It is often the case, and nearly impossible to keep the account down and you buy more than you need. We have a system whereby you can buy your goods at a cash store and not always bring the cash either, better still, you always know in the even when you just buy much you own and when you are expected to pay. Come in today and let us show you how to avoid the trouble from the old system and how to line up with a new method and save money, time and distress.
