PARIS DOCTOR BURNED IN A GAS EXPLOSION

Paris Ky., July 4.—Dr. C. G. Daugherty was the victim of a very painful accident today, which came near resulting seriously.

He and Mrs. Daugherty, who were married June 9 were engaged in putting the finishing touches to the home they are preparing for occupancy, as pleasant strangers, and upon entering one of the rooms this morning, Dr. Daugherty detected the odor of gas. He mounted a stepladder to find the leak in the flame, and thinking he had repaired it, struck a match to test it. Instantly there was an explosion and the room, which was filled with gas, was in a blaze, scorching the woodwork. The flame of the explosion knocked the doctor from the ladder, broke a large pane of glass from the window and a panel from the door, passed entirely through the dining room and broke was a large front hole in the living room.

Dr. Daugherty was severely burned about the head face and neck, and his hair was singed.

Mrs. Daugherty's hands were burned.

Philadelphia, Pa.—A 100 pound baby, two acres and nine months old, who as a pastime swallowed a penny, a piece of a piano-movie and a wife ate so much so two adults at a single meal.

Doctors from near and far have been called in the case and consultations and examinations. They cannot find any reason for the baby's loss of weight. They examine engines to find if perhaps it is because he knows how to operate a motor car, but he can't, he can't talk and vaudeville and can't, he can't talk and vaudeville and can't, he can't talk and vaudeville and
