Daisy Baker's Mother Says

Cut Your Bread Cost by Baking at Home

Bread is so cheap and wholesome that it is the best kind of economy to eat lots of it. Get the high cost of living by letting more bread and cake and less meats be your slogan.

You can make your own bread for less than 2 cents a loaner, and that includes every ingredient and your labor. It means practically two loaves for the price of one—twice as much for same cost—of the same country of food at eme-half the cost.

Good, heales saving money, you'll have better bread.

With the right flour, home-baking is made easy. My choice is Wilson Tell, made in Clear Springs, the most Valley, where the rich limestone and gives it a delicious flavor and wonderful baking qualities. It takes the ache out of bake and puts the flavor in.

Use WILLIAM TELL Flour

It is guaranteed under the Pure Food and Drugs Act. Wilson & Tarr Company, who make it, and it can be sold by any dealer who wants a large permanent business.
