"You can cut down that item"

and have a better roof

There is no use in putting on an expensive roof when you can get a better roof and save real money by using

Certain-teed Roofing

CERTAIN-TEED is the best roof, not only because it costs less to manufacture, but also because it is weather-tight, light weight, clean, sanitary, fireresistant, and costs practically nothing to maintain.

It is now used in the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the two. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are sure of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are weatherproof, wind and fire resisting and require no paint. They are laid exposed locking, semi-hexes, weave-laid, individual, rock-faced or split. They are fire-retardants, and do not flow to hot weather.

Certain-teed Paints and Varnishes

are the best that can be made. They are the result of 30 years of ground and mixed with unobtainable combinations of ingredients. Made for all uses and in all colors. With paint, as with roofing, you can be sure of the name CERTAIN-TEED is a guarantee of quality and satisfaction.
