A Modest Request Of The Minister and Committee Of Publicity In The Carlisle County Campaign For Funds

The Church in supreme and vital to the moral, spiritual and eternal interests of mankind, and is the greatest influence for good upon the material well-being of humanity is immeasurable. It is the source of the highest philanthropy and the inspiration of other forms of beneficence. It is the only institution that has never been any restraint upon her fullest activities, even though of necessity, it has been for a season, or even for weeks in dull town and countryside, and song has echoed within her walls. Her glorious prayer has ascended from her altars; not a note of warning or admonition has been withheld. God-appointed ministry or has a word of edification been delivered.

The members of our community willingly and gladly submitted to the powers that be, in the interest of quarantine against the infamous epidemic was established and the same has been in operation to avoid an identity continues, as at first. The days have run into weeks and the weeks into months and the epidemic remains unabated but the rather increased. Our churches have been closed tight and therefore church gatherings have not contributed in any way to the epidemic. During the same period our town has been a hive of activity. Stores, shops, offices and banks have congregated on our streets; commercial travelers have been conducted; stores and offices have, at times, been thronged; our theatres and picture shows have been freely indulged, and all the time the churches have been fast closing. Churches are governed by their people, and the slightest physical ailment on the part of members is a reason to keep at home.

In the light of these facts we must churches for being prohibited from holding services when the civil authorities allow the holding of all single services or Mass for the week, and Sunday morning. It may be a long time until there is little relief even in our own town, for the end of the quarantine was established. In some of the largest cities on June last, churches, church societies, including Sunday Schools, Masses, services for worship, prayer meetings, meetings and prayer meetings, and results have not been worse in such cities than in those in which churches have been shut tight. Matthew, 6,33—"Seek ye first the Kingdom of God and His Righteousness" is a good admonition for a Christian to follow. Individual prayer or no house God is worship service or Mass on Sunday morning.

If the order of the State Board of Health is pleaded as excuse for the present condition of affairs, then we find none, if they were advised of the circumstances and conditions existing throughout the period of quarantine in Carlisle and Nicholas County, we feel they would request the Sunday morning services, gladly surrendering the Sunday morning meeting and Sunday evening services, we feel they would request. Please let us have your views on the matter. Our views are not to be construed with the churches that have performed services as mentioned above.

Respectfully and loyally,

CARL MITCHELL
E. V. BOLTON
J. W. CRAIG

SATISFACTORY PRICES MARK OPENING TOBACCO SALES

The Lexington Tobacco market, the largest in the world, had their first sales on the counts on Tuesday, and inaugurated the season with a big demand on account of the opening day prices in previous years.

The sales for the day were 4,000,000 pounds, which brought $400,000 for an average of $10.07 per hundred.

The quality of tobacco offered was said not to have been as good as in the past, but the market was considered high, quality considered.

Among the purchasers of the best tobacco sold was Mr. Ben Bramblett, Carlisle, R. J. Reynolds Co. and Liggett & Myers Co. Mr. Bramblett paid more than $30 per hundred for the leaf, and Mr. Reynolds paid $40 per hundred. These are among the highest prices in previous years.
