Only About Half the Steer is Beef

Live Weights 1200 pounds
100%
Dressed Weight 675 pounds of Beef
56%

When Swift & Company buys a steer weighing 1200 pounds, only about 675 pounds goes to market as beef; the other 525 pounds consists of hide, fat, other by-products, and waste.

When the packer pays 15 cents a pound for beef, he gets the meat for only about 25 cents. But the packer gets only about 5 cents a pound for the other 525 pounds.

This means that the packer gets about 15 cents a pound for the meat, but the packer gets only about 5 cents a pound for the other 525 pounds.
