

INCREASE IN WESTERN CANADA ACREAGE

Will Prove a Big Factor in Winning the War.

Reports last night indicate that Western Canada has a record increase in acreage under the plow this year. The increase was 10 per cent over the corresponding figure of 1917. This is the highest increase since the beginning of the war. The increase is due to the fact that the weather has been so favorable that the planting season has been unusually early. In Canada, the planting season has been unusually early and the weather has been so favorable that the planting season has been unusually early. The increase is due to the fact that the weather has been so favorable that the planting season has been unusually early. The increase is due to the fact that the weather has been so favorable that the planting season has been unusually early.

Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the ill-considered views of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Table showing Swift & Company's net profit and sales figures for 1917.

This is equivalent to a \$2465 profit on a business of \$87,500. Swift & Company, U. S. A.

1,716,000,000 Pounds of Flour Saved

Each of our 22,000,000 families use this recipe instead of wheat. One loaf saves 11,000,000 pounds three loaves a week for a year means 1,716,000,000 pounds saved!

Enough to Feed the Entire Allied Army. Corn Bread with Rye Flour.
